The Iowa Administrative Code Supplement is published biweekly pursuant to Iowa Code section 17A.6. The Supplement contains replacement chapters to be inserted in the loose-leaf Iowa Administrative Code (IAC) according to instructions included with each Supplement. The replacement chapters incorporate rule changes which have been adopted by the agencies and filed with the Administrative Rules Coordinator as provided in Iowa Code sections 7.17 and 17A.4 to 17A.6. To determine the specific changes in the rules, refer to the Iowa Administrative Bulletin bearing the same publication date.

In addition to the changes adopted by agencies, the replacement chapters may reflect objection to a rule or a portion of a rule filed by the Administrative Rules Review Committee (ARRC), the Governor, or the Attorney General pursuant to Iowa Code section 17A.4(6); an effective date delay imposed by the ARRC pursuant to section 17A.4(7) or 17A.8(9); rescission of a rule by the Governor pursuant to section 17A.4(8); or nullification of a rule by the General Assembly pursuant to Article III, section 40, of the Constitution of the State of Iowa.

The Supplement may also contain replacement pages for the IAC Index or the Uniform Rules on Agency Procedure.

CHAPTER 64
WASTEWATER CONSTRUCTION AND OPERATION PERMITS

[Prior to 7/1/83, DEQ Ch 19]

[Prior to 12/3/86, Water, Air and Waste Management[900]]

567—64.1(455B) Definitions. Rescinded IAB 3/11/09, effective 4/15/09.

567—64.2(455B) Permit to construct.

64.2(1) No person shall construct, install or modify any wastewater disposal system or part thereof or extension or addition thereto without, or contrary to any condition of, a construction permit issued by the director or by a local public works department authorized to issue such permits under 567—Chapter 9, nor shall any connection to a sewer extension in violation of any special limitation specified in a construction permit pursuant to 64.2(10) be allowed by any person subject to the conditions of the permit.

64.2(2) The site for each new wastewater treatment plant or expansion or upgrading of existing facilities must be inspected and approved by the department prior to submission of plans and specifications. Applications must be submitted in accordance with 567—60.4(455B).

64.2(3) Site approval under 64.2(2) shall be based on the criteria contained in the Ten States Standards, design manuals published by the department, applicable federal guidelines and standards, standard textbooks, current technical literature and applicable safety standards. To the extent that separation distances of this subrule conflict with the separation distances of Iowa Code section 455B.134(3) “f,” the greater distance shall prevail. The following separation distances from a treatment works shall apply unless a separation distance exception is provided in the “Iowa Wastewater Facilities Design Standards.” The separation distance from lagoons shall be measured from the water surface.

a. 1000 feet from the nearest inhabitable residence, commercial building, or other inhabitable structure. If the inhabitable or commercial building is the property of the owner of the proposed treatment facility, or there is written agreement with the owner of the building, the separation criteria shall not apply. Any such written agreement shall be filed with the county recorder and recorded for abstract of title purposes, and a copy submitted to the department.

b. 1000 feet from public shallow wells.

c. 400 feet from public deep wells.

d. 400 feet from private wells.

e. 400 feet from lakes and public impoundments.

f. 25 feet from property lines and rights-of-way.

When the above separation distances cannot be maintained for the expansion, upgrading or replacement of existing facilities, the separation distances shall be maintained at no less than 90 percent of the existing separation distance on the site, providing no data is available indicating that a problem has existed or will be created.

64.2(4) Applications for a construction permit must be submitted to the director in accordance with 567—60.4(455B) at least 120 days in advance of the date of start of construction.

64.2(5) The director shall act upon the application within 60 days of receipt of a complete application by either issuing a construction permit or denying the construction permit in writing unless a longer review period is required and the applicant is so notified in writing. Notwithstanding the 120-day requirement in 64.2(4), construction of the approved system may commence immediately after the issuance of a construction permit.

64.2(6) The construction permit shall expire if construction thereunder is not commenced within one year of the date of issuance thereof. The director may grant an extension of time to commence construction if it is necessary or justified, upon showing of such necessity or justification to the director.

64.2(7) The director may modify or revoke a construction permit for cause which shall include but not be limited to the following:

a. Failure to construct said wastewater disposal system or part thereof in accordance with the approved plans and specifications.

b. Violation of any term or condition of the permit.

c. Obtaining a permit by misrepresentation of facts or failure to disclose fully all material facts.

d. Any change during construction that requires material changes in the approved plans and specifications.

64.2(8) A construction permit shall not be required for the following:

- a. Storm sewers or storm water disposal systems that transport only storm water.
- b. Any new disposal system or extension or addition to any existing disposal system that receives only domestic or sanitary sewage from a building, housing or occupied by 15 persons or less.
- c. A privately owned pretreatment facility, except an anaerobic lagoon, where a treatment unit or units provide partial reduction of the strength or toxicity of the waste stream prior to additional treatment and disposal by another person, corporation, or municipality. However, the department may require that the design basis and construction drawings be filed for information purposes.

64.2(9) Review of applications.

a. Review of applications for construction permits shall be based on the criteria contained in the “Iowa Wastewater Facilities Design Standards,” the Ten States Standards, applicable federal guidelines and standards, standard textbooks, current technical literature and applicable safety standards. To the extent of any conflict between the above criteria the “Iowa Wastewater Facilities Design Standards” standards shall prevail.

b. The chapters of the “Iowa Wastewater Facilities Design Standards”* that apply to wastewater facilities projects, and the date of adoption of those chapters are:

21. Land application of wastewater	April 25, 1979

*The design manual as adopted and amended is available upon request to department, also filed with administrative rules coordinator.

c. Variances from the design standards and siting criteria which provide in the judgment of the department for substantially equivalent or improved effectiveness may be requested when there are unique circumstances not found in most projects. The director may issue variances when circumstances are appropriate. The denial of a variance may be appealed to the commission.

d. When reviewing the variance request the director may consider the unique circumstances of the project, direct or indirect environmental impacts, the durability and reliability of the alternative, and the purpose and intent of the rule or standard in question.

e. Circumstances that would warrant consideration of a variance (which provides for substantially equivalent or improved effectiveness) may include the following:

(1) The utilization of new equipment or new process technology that is not explicitly covered by the current design standards.

(2) The application of established and acceptable technologies in an innovative manner not covered by current standards.

(3) It is reasonably clear that the conditions and circumstances which were considered in the adoption of the rule or standard are not applicable for the project in question and therefore the effective purpose of the rule will not be compromised if a variance is granted.

64.2(10) Applications for sanitary sewer extension construction permits shall conform to the Iowa Standards for Sewer Systems, and approval shall be subject to the following:

a. A sanitary sewer extension construction permit may be denied if, at the time of application, the treatment facility treating wastewater from the proposed sewer is not in substantial compliance with its operating permit or if the treatment facility receives wastes in volumes or quantities that exceed its design capacity and interfere with its operation or performance.

If the applicant is operating under a compliance schedule which is being adhered to that leads to resolution of the substantial compliance issues or if the applicant can demonstrate that the problem has been identified, the planning completed, and corrective measures initiated, then the construction permit may be granted.

b. A sanitary sewer extension construction permit may be denied if bypassing has occurred at the treatment facility, except when any of the following conditions are being met:

(1) The bypassing is due to a combined sewer system, and the facility is in compliance with a long-term CSO control plan approved by the department.

(2) The bypassing occurs as a result of a storm with an intensity or duration greater than that of a storm with a return period of five years. (See App. A)

(3) The department determines that timely actions are being taken to eliminate the bypassing.

c. A sanitary sewer extension construction permit may be denied if an existing downstream sewer is or will be overloaded or surcharged, resulting in bypassing, flooded basements, or overflowing manholes, unless:

(1) The bypassing or flooding is the result of a precipitation event with an intensity or duration greater than that of a storm with a return period of two years. (See App. A); or

(2) The system is under full-scale facility planning (I/I and SSES) and the applicant provides a schedule that is approved by the department for rehabilitating the system to the extent necessary to handle the additional loadings.

d. Potential loads. Construction permits may be granted for sanitary sewer extensions that are sized to serve future loads that would exceed the capacity of the existing treatment works. However, initial connections shall be limited to the load that can be handled by the existing treatment works. The department will determine this load and advise the applicant of the limit. This limitation will be in effect until additional treatment capacity has been constructed.

64.2(11) Certification of completion. Within 30 days after completion of construction, installation or modification of any wastewater disposal system or part thereof or extension or addition thereto, the permit holder shall submit a certification by a registered professional engineer that the project was completed in accordance with the approved plans and specifications.

[ARC 7625B, IAB 3/11/09, effective 4/15/09]

567—64.3(455B) Permit to operate.

64.3(1) Except as otherwise provided in this subrule, in 567—Chapter 65, and in 567—Chapter 69, no person shall operate any wastewater disposal system or part thereof without, or contrary to any condition of, an operation permit issued by the director. An operation permit is not required for the following:

a. A private sewage disposal system which does not discharge into, or have the potential to reach, a designated water of the state or subsurface drainage tile (NOTE: private sewage disposal systems under this exemption are regulated under 567—Chapter 69);

- b.* A semipublic sewage disposal system, the construction of which has been approved by the department and which does not discharge into a water of the state;
- c.* A pretreatment system, the effluent of which is to be discharged directly to another disposal system for final treatment and disposal;
- d.* A discharge from a geothermal heat pump which does not reach a navigable water.
- e.* Water well construction and well services related discharge that does not reach a water of the United States as defined in 40 CFR Part 122.2.
- f.* Discharges from the application of biological pesticides and chemical pesticides where the discharge does not reach a water of the United States as defined in 40 CFR Part 122.2.

64.3(2) Rescinded, effective 2/20/85.

64.3(3) The owner of any disposal system or part thereof in existence before August 21, 1973, for which a permit has been previously granted by the Iowa department of health or the Iowa department of environmental quality shall submit such information as the director may require to determine the conformity of such system and its operation with the rules of the department by no later than 60 days after the receipt of a request for such information from the director. If the director determines that the disposal system does not conform to the rules of the department, the director may require the owner to make such modifications as are necessary to achieve compliance. A construction permit shall be required, pursuant to 64.2(1), prior to any such modification of the disposal system.

64.3(4) Applications.

a. Individual permit. Except as provided in 64.3(4)“*b*,” applications for operation permits required under 64.3(1) shall be made on forms provided by the department, as noted in 567—subrule 60.3(2). The application for an operation permit under 64.3(1) shall be filed pursuant to 567—subrule 60.4(2). Permit applications for a new discharge of storm water associated with construction activity as defined in 567—Chapter 60 under “storm water discharge associated with industrial activity” must be submitted at least 60 days before the date on which construction is to commence. Upon completion of a tentative determination with regard to the permit application as described in 64.5(1)“*a*,” the director shall issue operation permits for applications filed pursuant to 64.3(1) within 90 days of the receipt of a complete application unless the application is for an NPDES permit or unless a longer period of time is required and the applicant is so notified.

b. General permit. A Notice of Intent for coverage under a general permit must be made on the appropriate form provided by the department listed in 567—subrule 60.3(2) and in accordance with 567—64.6(455B). A Notice of Intent must be submitted to the department according to the following:

(1) For existing storm water discharge associated with industrial activity, with the exception of discharges identified in subparagraphs (2) and (3) of this paragraph, on or before October 1, 1992.

(2) For any existing storm water discharge associated with industrial activity from a facility or construction site that is owned or operated by a municipality with a population of less than 100,000 other than an airport, power plant or uncontrolled sanitary landfill, on or before March 10, 2003.

For purposes of this subparagraph, municipality means city, town, borough, county, parish, district, association, or other public body created by or under state law. The entire population served by the public body shall be used in the determination of the population.

(3) For any existing storm water discharge associated with small construction activity on or before March 10, 2003.

(4) For storm water discharge associated with industrial activity which initiates operation after October 1, 1992, with the exception of discharges identified in subparagraphs (2) and (3) of this paragraph, where storm water discharge associated with industrial activity could occur as defined in rule 567—60.2(455B).

(5) For any private sewage disposal system installed after July 1, 1998, where subsoil discharge is not possible.

(6) For any discharge, except a storm water only discharge, from a mining or processing facility after July 18, 2001.

(7) For the discharge of biological pesticides and chemical pesticides which leave a residue to a water of the United States (as defined in 40 CFR Part 122.2) that meet any of the thresholds established in General Permit No. 7 after March 30, 2011.

64.3(5) Requirements for industries that discharge to another disposal system except storm water point sources.

a. The director may require any person discharging wastes to a publicly or privately owned disposal system to submit information similar to that required in an application for an operation permit, but no operation permit is required for such discharge.

Significant industrial users as defined in 567—Chapter 60 must submit a treatment agreement which meets the following criteria:

(1) The agreement must be on the treatment agreement form, number 542-3221, as provided by the department; and

(2) Must identify and limit the monthly average and the daily maximum quantity of compatible and incompatible pollutants discharged to the disposal system and the variations in daily flow; and

(3) Be signed and dated by the significant industrial user and the owner of the disposal system accepting the wastewater; and

(4) Provide that the quantities to be discharged to the disposal system must be in accordance with the applicable standards and requirements in 567—Chapter 62.

b. A significant industrial user must submit a new treatment agreement form 60 days in advance of a proposed expansion, production increase or process modification that may result in discharges of sewage, industrial waste, or other waste in excess of the discharge stated in the existing treatment agreement. An industry that would become a significant industrial user as a result of a proposed expansion, production increase or process modification shall submit a treatment agreement form 60 days in advance of the proposed expansion, production increase or process modification.

c. A treatment agreement form must be submitted at least 180 days before a new significant industrial user proposes to discharge into a wastewater disposal system. The owner of a wastewater disposal system shall notify the director by submitting a complete treatment agreement to be received at least 10 days prior to making any commitment to accept waste from a proposed new significant industrial user. However, the department may notify the owner that verification of the data in the treatment agreement may take longer than 10 days and advise that the owner should not enter into a commitment until the data is verified.

d. A treatment agreement form for each significant industrial user must be submitted with the facility plan or preliminary engineering report for the construction or modification of a wastewater disposal system. These agreements will be used in determining the design basis of the new or upgraded system.

e. Treatment agreement forms from significant industrial users shall be required as a part of the application for a permit to operate the wastewater disposal system receiving the wastes from the significant industrial user.

64.3(6) Rescinded, effective 7/23/86.

64.3(7) Operation permits may be granted for any period of time not to exceed five years. Applications for renewal of an operation permit must be submitted to the department 180 days in advance of the date the permit expires. General permits will be issued for a period not to exceed five years. Each permit to be renewed shall be subject to the provisions of all rules of the department in effect at the time of the renewal.

64.3(8) Identity of signatories of permit applications. The person who signs the application for a permit shall be:

a. Corporations. In the case of corporations, a responsible corporate officer. A responsible corporate officer means:

(1) A president, secretary, treasurer, or vice president in charge of a principal business function, or any other person who performs similar policy- or decision-making functions; or

(2) The manager of manufacturing, production, or operating facilities, if authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.

b. Partnerships. In the case of a partnership, a general partner.
c. Sole proprietorships. In the case of a sole proprietorship, the proprietor.
d. Municipal, state, federal, or other public agency. In the case of a municipal, state, or other public facility, either the principal executive officer or the ranking elected official. A principal executive officer of a public agency includes:

- (1) The chief executive officer of the agency; or
- (2) A senior executive officer having responsibility for the overall operations of a unit of the agency.

e. Storm water discharge associated with industrial activity from construction activities. In the case of a storm water discharge associated with construction activity, either the owner of the site or the general contractor.

f. Certification. Any person signing a document under paragraph “a” to “d” of this subrule shall make the following certification:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for known violations.

The person who signs NPDES reports shall be a person described in this subrule, except that in the case of a corporation or a public body, monitoring reports required under the terms of the permit may be submitted by a duly authorized representative of the person described in this subrule. A person is a duly authorized representative if the authorization is made in writing by a person described in this subrule and the authorization specifies an individual or position having responsibility for the overall operation of the regulated facility, such as plant manager, superintendent, or position of equivalent responsibility, or an individual or position having overall responsibility for environmental matters for the corporation.

64.3(9) When necessary to comply with present standards which must be met at a future date, an operation permit shall include a schedule for the alteration of the permitted facility to meet said standards. Such schedules shall not relieve the permittee of the duty to obtain a construction permit pursuant to 567—64.2(455B). When necessary to comply with a pretreatment standard or requirement which must be met at a future date, a significant industrial user will be given a compliance schedule for meeting those requirements.

64.3(10) Operation permits shall contain such conditions as are deemed necessary by the director to ensure compliance with all applicable rules of the department, including monitoring and reporting conditions, to protect the public health and beneficial uses of state waters, and to prevent water pollution from waste storage or disposal operations.

64.3(11) The director may amend, revoke and reissue, or terminate in whole or in part any individual operation permit or coverage under a general permit for cause. Except for general permits, the director may modify in whole or in part any individual operation permit for cause. A variance or modification to the terms and conditions of a general permit shall not be granted. If a variance or modification to a general permit is desired, the applicant must apply for an individual permit following the procedures in 64.3(4) “a.”

a. Permits may be amended, revoked and reissued, or terminated for cause either at the request of any interested person (including the permittee) or upon the director’s initiative. All requests shall be in writing and shall contain facts or reasons supporting the request.

b. Cause under this subrule includes the following:

- (1) Violation of any term or condition of the permit.
- (2) Obtaining a permit by misrepresentation of fact or failure to disclose fully all material facts.
- (3) A change in any condition that requires either a temporary or permanent reduction or elimination of the permitted discharge.

(4) Failure to submit such records and information as the director shall require both generally and as a condition of the permit in order to ensure compliance with the discharge conditions specified in the permit.

(5) Failure or refusal of an NPDES permittee to carry out the requirements of 64.7(5)“c.”

(6) Failure to provide all the required application materials or appropriate fees.

(7) A request for a modification of a schedule of compliance, an interim effluent limitation, or the minimum monitoring requirements pursuant to 567—paragraph 60.4(2)“b.”

(8) Causes listed in 40 CFR 122.62 and 122.64.

c. The permittee shall furnish to the director, within a reasonable time, any information that the director may request to determine whether cause exists for amending, revoking and reissuing, or terminating a permit, including a new permit application.

d. The filing of a request by an interested person for an amendment, revocation and reissuance, or termination does not stay any permit condition.

e. If the director decides the request is not justified, the director shall send the requester a brief written response giving a reason for the decision. Denials of requests for modification, revocation and reissuance, or termination are not subject to public notice, comment, hearings, or appeals.

f. Draft permits.

(1) If the director tentatively decides to amend, revoke and reissue, or terminate a permit, a draft permit shall be prepared according to 64.5(1).

(2) When a permit is amended under this paragraph, only those conditions to be modified shall be reopened when a new draft permit is prepared. All other aspects of the existing permit shall remain in effect for the duration of the permit.

(3) When a permit is revoked and reissued under this paragraph, the entire permit is reopened just as if the permit had expired and was being reissued.

(4) If the permit amendment falls under the definition of “minor amendment” in 567—60.2(455B), the permit may be amended without a draft permit or public notice.

(5) During any amendment, revocation and reissuance, or termination proceeding, the permittee shall comply with all conditions of the existing permit until a new final permit is reissued.

64.3(12) No permit may be issued:

a. When the applicant is required to obtain certification under Section 401 of the Clean Water Act and that certification has not been obtained or waived;

b. When the imposition of conditions cannot ensure compliance with the applicable water quality requirements of all affected states; or

c. To a new source or new discharger if the discharge from its construction or operation will cause or contribute to a violation of water quality standards. The owner or operator of a new source or new discharger proposing to discharge to a water segment which does not meet applicable water quality standards must demonstrate, before the close of the public comment period for a draft NPDES permit, that:

(1) There is sufficient remaining load in the water segment to allow for the discharge; and

(2) The existing dischargers to the segment are subject to compliance schedules designed to bring the segment into compliance with water quality standards.

The director may waive the demonstration if the director already has adequate information to demonstrate (1) and (2).

567—64.4(455B) Issuance of NPDES permits.

64.4(1) Individual permit. An individual NPDES permit is required when there is a discharge of a pollutant from any point source into navigable waters. An NPDES permit is not required for the following:

a. Reserved.

b. Discharges of dredged or fill material into navigable waters which are regulated under Section 404 of the Act;

c. The introduction of sewage, industrial wastes or other pollutants into a POTW by indirect dischargers. (This exclusion from requiring an NPDES permit applies only to the actual addition of materials into the subsequent treatment works. Plans or agreements to make such additions in the future do not relieve dischargers of the obligation to apply for and receive permits until the discharges of pollutants to navigable waters are actually eliminated. It also should be noted that, in all appropriate cases, indirect discharges shall comply with pretreatment standards promulgated by the administrator pursuant to Section 307(b) of the Act and adopted by reference by the commission);

d. Any discharge in compliance with the instruction of an On-Scene Coordinator pursuant to 40 CFR Part 300 (The National Oil and Hazardous Substances Pollution Contingency Plan) or 33 CFR 153.10(e) (Pollution by Oil and Hazardous Substances);

e. Any introduction of pollutants from non-point source agricultural and silvicultural activities, including storm water runoff from orchards, cultivated crops, pastures, range lands, and forest lands, except that this exclusion shall not apply to the following:

- (1) Discharges from concentrated animal feeding operations as defined in 40 CFR 122.23;
- (2) Discharges from concentrated aquatic animal production facilities as defined in 40 CFR 122.24;
- (3) Discharges to aquaculture projects as defined in 40 CFR 122.25;
- (4) Discharges from silvicultural point sources as defined in 40 CFR 122.27;

f. Return flows from irrigated agriculture; and

g. Water transfers, which are defined as activities that convey or connect navigable waters without subjecting the transferred water to intervening industrial, municipal, or commercial use.

64.4(2) General permit.

a. The director may issue general permits which are consistent with 64.4(2)“b” and the requirements specified in 567—64.6(455B), 567—64.7(455B), 567—subrule 64.8(2), and 567—64.9(455B) for the following activities:

(1) Storm water point sources requiring an NPDES permit pursuant to Section 402(p) of the federal Clean Water Act and 40 CFR 122.26 (as amended through June 15, 1992).

(2) Private sewage disposal system discharges permitted under 567—Chapter 69 where subsoil discharge is not possible as determined by the administrative authority.

(3) Discharges from water well construction and related well services where the discharge will reach a water of the United States as defined in 40 CFR Part 122.2.

(4) For any discharge, except a storm water only discharge, from a mining or processing facility.

(5) Discharges from the application of biological pesticides and chemical pesticides which leave a residue where the discharge will reach a water of the United States as defined in 40 CFR Part 122.2.

b. Each general permit issued by the department must:

(1) Be adopted as an administrative rule in accordance with Iowa Code chapter 17A, the Administrative Procedure Act. Each proposed permit will be accompanied by a fact sheet setting forth the principal facts and methodologies considered during permit development,

(2) Correspond to existing geographic or political boundaries, and

(3) Be identified in 567—64.15(455B).

c. If an NPDES permit is required for an activity covered by a general permit, the applicant may seek either general permit coverage or an individual permit. Procedures and requirements for obtaining an individual NPDES permit are detailed in 64.3(4)“a.” Procedures for filing a Notice of Intent for coverage under a general permit are described in 567—64.6(455B) “Completing a Notice of Intent for Coverage Under a General Permit.”

64.4(3) Effect of a permit.

a. Except for any toxic effluent standards and prohibitions imposed under Section 307 of the Act and standards for sewage sludge use or disposal under Section 405(d) of the Act, compliance with a permit during its term constitutes compliance, for purposes of enforcement, with Sections 301, 302, 306, 307, 318, 403 and 405(a)-(b) of the Act, and equivalent limitations and standards set out in 567—Chapters 61 and 62. However, a permit may be terminated during its term for cause as set forth in 64.3(11). Compliance with a permit condition which implements a particular standard for sewage

sludge use or disposal shall be an affirmative defense in any enforcement action brought for a violation of that standard for sewage sludge use or disposal.

b. The issuance of a permit does not convey any property rights of any sort, or any exclusive privilege.

64.5(1) *Formulation of tentative determination.* The department shall make a tentative determination to issue or deny an operation or NPDES permit for the discharge described in a permit application in advance of the public notice as described in 64.5(2).

a. If the tentative determination is to issue an NPDES permit, the department shall prepare a permit rationale for each draft permit pursuant to 64.5(3) and a draft permit. The draft permit shall include the following:

(1) Effluent limitations identified pursuant to 64.6(2) and 64.6(3), for those pollutants proposed to be limited.

(2) If necessary, a proposed schedule of compliance, including interim dates and requirements, identified pursuant to 64.7(4), for meeting the effluent limitations and other permit requirements.

(3) Any other special conditions (other than those required in 64.6(5)) which will have a significant impact upon the discharge described in the permit application.

b. If the tentative determination is to deny an NPDES permit, the department shall prepare a notice of intent to deny the permit application. The notice of intent to deny an application will be placed on public notice as described in 64.5(2).

c. If the tentative determination is to issue an operation permit (non-NPDES permit), the department shall prepare a final permit and transmit the final permit to the applicant. The applicant will have 30 days to appeal the final operation permit.

d. If the tentative determination is to deny an operation permit (non-NPDES permit), no public notice is required. The department shall send written notice of the denial to the applicant. The applicant will have 30 days to appeal the denial.

64.5(2) *Public notice for NPDES permits.*

a. Prior to the issuance of an NPDES permit, a major NPDES permit amendment, or the denial of a permit application for an NPDES permit, public notice shall be circulated in a manner designed to inform interested and potentially interested persons of the proposed discharge and of the tentative determination to issue or deny an NPDES permit for the proposed discharge. Procedures for the circulation of public notice shall include at least the procedures of subparagraphs (1) to (3).

(1) The public notice for a draft NPDES permit or major permit amendment shall be circulated by the applicant within the geographical areas of the proposed discharge by posting the public notice in the post office and public places of the city nearest the premises of the applicant in which the effluent source is located; by posting the public notice near the entrance to the applicant's premises and in nearby places; and by publishing the public notice in local newspapers and periodicals, or, if appropriate, in a newspaper of general circulation. The public notice for the denial of a permit application shall be sent to the applicant and circulated by the department within the geographical areas of the proposed discharge by publishing the public notice in local newspapers and periodicals, or, if appropriate, in a newspaper of general circulation.

(2) The public notice shall be sent by the department to any person upon request.

(3) Upon request, the department shall add the name of any person or group to the distribution list to receive copies of all public notices concerning the tentative determinations with respect to the permit applications within the state or within a certain geographical area and shall send a copy of all public notices to such persons.

b. The department shall provide a period of not less than 30 days following the date of the public notice during which time interested persons may submit their written views on the tentative determinations with respect to the permit application and request a public hearing pursuant to 64.5(6). Written comments may be submitted by paper or electronic means. All comments submitted during

the 30-day comment period shall be retained by the department and considered by the director in the formulation of the director's final determinations with respect to the permit application. The period for comment may be extended at the discretion of the department. Pertinent and significant comments received during either the original comment period or an extended comment period shall be responded to in a responsiveness summary pursuant to 64.5(8).

c. The contents of the public notice of a draft NPDES permit, a major permit amendment, or the denial of a permit application for an NPDES permit shall include at least the following:

- (1) The name, address, and telephone number of the department.

d. No public notice is required for a minor permit amendment, including an amendment to correct typographical errors, include more frequent monitoring requirements, revise interim compliance schedule dates, change the owner name or address, include a local pretreatment program, or remove a point source outfall that does not result in the discharge of pollutants from other outfalls.

e. No public notice is required when a request for a permit amendment or a request for a termination of a permit is denied. The department shall send written notice of the denial to the requester and the permittee only. No public notice is required if an applicant withdraws a permit application.

64.5(3) *Permit rationales and notices of intent to deny.*

a. When the department has made a determination to issue an NPDES permit as described in 64.5(1), the department shall prepare and, upon request, shall send to any person a permit rationale with respect to the application described in the public notice. The contents of such permit rationales shall include at least the following information:

- (1) A detailed description of the location of the discharge described in the permit application.

The contents of such notice of intent to deny shall include at least the following information:

- (1) A detailed description of the location of the discharge described in the permit application; and

c. When the department has made a determination to issue an operation permit as described in 64.5(1), the department shall prepare a short description of the waste disposal system and the reasons supporting the decision to issue an operation permit. The description shall be sent to the operation permit applicant upon request.

Each affected state shall be afforded an opportunity to submit written recommendations to the department and to the regional administrator which the director may incorporate into the permit if issued. Should the director fail to incorporate any written recommendation thus received, the director shall provide to the affected state or states and to the regional administrator a written explanation of the reasons for failing to accept any written recommendation.

b. At the time of issuance of public notice pursuant to 64.5(2), the department shall send the public notice for proposed discharges (other than minor discharges) into navigable waters to the appropriate district engineer of the army corps of engineers.

(1) The department and the district engineer for each corps of engineers district within the state may arrange for: notice to the district engineer of minor discharges; waiver by the district engineer of the right to receive public notices with respect to classes, types, and sizes within any category of point sources and with respect to discharges to particular navigable waters or parts thereof; and any procedures for the transmission of forms, period of comment by the district engineer (e.g., 30 days), and for objections of the district engineer.

64.5(5) *Public access to NPDES information.* The records of the department connected with NPDES permits are available for public inspection and copying to the extent provided in 567—Chapter 2.

64.5(6) *Public hearings on proposed NPDES permits.* The applicant, any affected state, the regional administrator, or any interested agency, person or group of persons may request or petition for a public hearing with respect to an NPDES application. Any such request shall clearly state issues and topics to be addressed at the hearing. Any such request or petition for public hearing must be filed with the director within the 30-day period prescribed in 64.5(2) “b” and shall indicate the interest of the party filing such request and the reasons why a hearing is warranted. The director shall hold an informal and noncontested case hearing if there is a significant public interest (including the filing of requests or petitions for such hearing) in holding such a hearing. Frivolous or insubstantial requests for hearing may be denied by the director. Instances of doubt should be resolved in favor of holding the hearing. a. The discharge would not comply with Iowa’s water quality standards pursuant to 567—Chapter 61, or

b. The department finds that the activities associated with a Notice of Intent filed with the department do not meet the conditions of the general permit. The department will notify the affected discharger and establish a deadline, not longer than one year, for submitting an individual permit application, or

c. The department finds that water well construction and well service discharge are not managed in a manner consistent with the conditions specified in General Permit No. 6, or

d. The department finds that discharges from biological pesticides and chemical pesticides which leave a residue are not managed in a manner consistent with the conditions specified in General Permit No. 7.

64.6(4) *Eligibility for individual permit holders.* A person holding an individual NPDES permit for an activity covered by a general permit may apply for coverage under a general permit upon expiration of the individual permit and by filing a Notice of Intent according to procedures described in 64.3(4) “b.”

64.6(5) *Filing a Notice of Discontinuation.* A notice to discontinue the activity covered by the NPDES general permit shall be made in writing to the department 30 days prior to or after discontinuance of the discharge. For storm water discharge associated with industrial activity for construction activities, the discharge will be considered as discontinued when “final stabilization” has been reached. Final stabilization means that all soil-disturbing activities at the site have been completed and that a uniform perennial vegetative cover with a density of 70 percent for the area has been established or equivalent stabilization measures have been employed.

The notice of discontinuation shall contain the following:

a. The name of the facility to which the permit was issued,

b. The general permit number and permit authorization number,

c. The date the permitted activity was, or will be, discontinued, and

d. A signed certification in accordance with the requirements in the general permit.

64.6(6) *Transfer of ownership—construction activity part of a larger common plan of development.* For construction activity which is part of a larger common plan of development, such as a housing or commercial development project, in the event a permittee transfers ownership of all or any part of property subject to NPDES General Permit No. 2, both the permittee and transferee shall be responsible for compliance with the provisions of the general permit for that portion of the project which has been transferred, including when the transferred property is less than one acre in area, from and after the date the department receives written notice of the transfer, provided that:

a. The transferee is notified in writing of the existence and location of the general permit and pollution prevention plan, and of the transferee’s duty to comply, and proof of such notice is included with the notice to the department of the transfer.

b. If the transferee agrees, in writing, to become the sole responsible permittee for the property which has been transferred, then the transferee shall be solely responsible for compliance with the provisions of the general permit for the transferred property from and after the date the department receives written notice of the transferee’s assumption of responsibility.

c. If the transferee agrees, in writing, to obtain coverage under NPDES General Permit No. 2 for the property which has been transferred, then the transferee is required to obtain coverage under NPDES General Permit No. 2 for the transferred property from and after the date the department receives written notice of the transferee's assumption of responsibility for permit coverage. After the transferee has agreed, in writing, to obtain coverage under NPDES General Permit No. 2 for the transferred property and the department has received written notice of the transferee's assumption of responsibility for permit coverage for the transferred property, the authorization issued under NPDES General Permit No. 2 to the transferor for the transferred property shall be considered by the department as not providing NPDES permit coverage for the transferred property and the transferor's authorization issued under NPDES General Permit No. 2 for, and only for, the transferred property, shall be deemed by the department as being discontinued without further action of the transferor.

d. All notices sent to the department as described in this subrule shall contain the name of the development as submitted to the department in the original Notice of Intent and as modified by any subsequent written notices of name changes submitted to the department, the authorization number assigned to the authorization by the department, the legal description of the transferred property including lot number, if any, and any other information necessary to precisely locate the transferred property and to establish the legality of the document.

567—64.7(455B) Terms and conditions of NPDES permits.

64.7(1) Prohibited discharges. No NPDES permit may authorize any of the discharges prohibited by 567—62.1(455B).

64.7(2) Application of effluent, pretreatment and water quality standards and other requirements. Each NPDES permit shall include any of the following that is applicable:

a. An effluent limitation guideline promulgated by the administrator under Sections 301 and 304 of the Act and adopted by reference by the commission in 567—62.4(455B).

b. A standard of performance for a new source promulgated by the administrator under Section 306 of the Act and adopted by reference by the commission in 567—62.4(455B).

c. An effluent standard, effluent prohibition or pretreatment standard promulgated by the administrator under Section 307 of the Act and adopted by reference by the commission in 567—62.4(455B) or 567—62.5(455B).

d. A water quality related effluent limitation established by the administrator pursuant to Section 302 of the Act.

e. Prior to promulgation by the administrator of applicable effluent and pretreatment standards under Sections 301, 302, 306, and 307 of the Act, such conditions as the director determines are necessary to carry out the provisions of the Act.

f. Any other limitation, including those:

(1) Necessary to meet water quality standards, treatment or pretreatment standards, or schedules of compliance established pursuant to any Iowa law or regulation, or to implement the antidegradation policy in 567—subrule 61.2(2); or

(2) Necessary to meet any other federal law or regulation; or

(3) Required to implement any applicable water quality standards; or

(4) Any legally applicable requirement necessary to implement total maximum daily loads established pursuant to Section 303(d) of the Act and incorporated in the continuing planning process approved under Section 303(e) of the Act and any regulations and guidelines issued pursuant thereto.

g. Limitations must control all pollutants or pollutant parameters which the director determines are or may be discharged at a level which will cause, have the reasonable potential to cause, or contribute to an excursion above any water quality standard, including narrative criteria, in 567—Chapter 61. When the permitting authority determines that a discharge causes, has the reasonable potential to cause, or contributes to an in-stream excursion of the water quality standard for an individual pollutant, the permit must contain effluent limits for that pollutant.

h. Any more stringent legally applicable requirements necessary to comply with a plan approved pursuant to Section 208(b) of the Act.

In any case where an NPDES permit applies to effluent standards and limitations described in paragraph “a,” “b,” “c,” “d,” “e,” “f,” “g,” or “h,” the director must state that the discharge authorized by the permit will not violate applicable water quality standards and must have prepared some verification of that statement. In any case where an NPDES permit applies any more stringent effluent limitation, described in 64.7(2) “f”(1) or “g,” based upon applicable water quality standards, a waste load allocation must be prepared to ensure that the discharge authorized by the permit is consistent with applicable water quality standards.

64.7(3) *Effluent limitations in issued NPDES permits.* In the application of effluent standards, and limitations, water quality standards, and other legally applicable requirements, pursuant to 64.7(2), the director shall, for each issued NPDES permit, specify average and maximum daily quantitative limitations for the level of pollutants in the authorized discharge in terms of weight (except pH, temperature, radiation, and any other pollutants not appropriately expressed by weight). The director may, in addition to the specification of daily quantitative limitations by weight, specify other limitations such as average or maximum concentration limits, for the level of pollutants authorized in the discharge.

[COMMENT. The manner in which effluent limitations are expressed will depend upon the nature of the discharge. Continuous discharges shall be limited by daily loading figures and, where appropriate, may be limited as to concentration or discharge rate (e.g., for toxic or highly variable continuous discharges). Batch discharges should be more particularly described and limited in terms of (i) frequency (e.g., to occur not more than once every three weeks), (ii) total weight (e.g., not to exceed 300 pounds per batch discharge), (iii) maximum rate of discharge of pollutants during the batch discharge (e.g., not to exceed 2 pounds per minute), and (iv) prohibition or limitation by weight, concentration, or other appropriate measure of specified pollutants (e.g., shall not contain at any time more than 0.1 ppm zinc or more than ¼ pound of zinc in any batch discharge). Other intermittent discharges, such as recirculation blowdown, should be particularly limited to comply with any applicable water quality standards and effluent standards and limitations.]

64.7(4) *Schedules of compliance in issued NPDES permits.* The director shall follow the following procedure in setting schedules in NPDES permit conditions to achieve compliance with applicable effluent standards and limitations, water quality standards, and other legally applicable requirements.

a. With respect to any discharge which is not in compliance with applicable effluent standards and limitations, applicable water quality standards, or other legally applicable requirements listed in 64.7(2) “f” and 64.7(2) “g,” the permittee shall be required to take specific steps to achieve compliance with: applicable effluent standards and limitations; if more stringent, water quality standards; or if more stringent, legally applicable requirements listed in 64.7(2) “f” and 64.7(2) “g.” In the absence of any legally applicable schedule of compliance, such steps shall be achieved in the shortest, reasonable period of time, such period to be consistent with the guidelines and requirements of the Act.

b. In any case where the period of time for compliance specified in paragraph “a” of this subrule exceeds nine months, a schedule of compliance shall be specified in the permit which will set forth interim requirements and the dates for their achievement; in no event shall more than nine months elapse between interim dates. If the time necessary for completion of the interim requirements (such as the construction of a treatment facility) is more than nine months and is not readily divided into stages for completion, interim dates shall be specified for the submission of reports of progress toward completion of the interim requirement.

[COMMENT. Certain interim requirements such as the submission of preliminary or final plans often require less than nine months and thus a shorter interval should be specified. Other requirements such as the construction of treatment facilities may require several years for completion and may not readily subdivide into nine-month intervals. Long-term interim requirements should nonetheless be subdivided into intervals not longer than nine months at which the permittee is required to report progress to the director pursuant to 64.7(4) “c.”]

c. Either before or up to 14 days following each interim date and the final date of compliance the permittee shall provide the department with written notice of the permittee's compliance or noncompliance with the interim or final requirement.

d. On the last day of the months of February, May, August, and November the director shall transmit to the regional administrator a list of all instances, as of 30 days prior to the date of such report, of failure or refusal of a permittee to comply with an interim or final requirement or to notify the department of compliance or noncompliance with each interim or final requirement (as required pursuant to paragraph "b" of this subrule). Such list shall be available to the public for inspection and copying and shall contain at least the following information with respect to each instance of noncompliance:

- (1) Name and address of each noncomplying permittee.
- (2) A short description of each instance of noncompliance (e.g., failure to submit preliminary plans, two-week delay in commencement of construction of treatment facility; failure to notify of compliance with interim requirement to complete construction by June 30).
- (3) A short description of any actions or proposed actions by the permittee to comply or by the director to enforce compliance with the interim or final requirement.
- (4) Any details which tend to explain or mitigate an instance of noncompliance with an interim or final requirement (e.g., construction delayed due to materials shortage, plan approval delayed by objections).

e. If a permittee fails or refuses to comply with an interim or final requirement in an NPDES permit such noncompliance shall constitute a violation of the permit for which the director may, pursuant to 567—Chapters 7 and 60, modify, suspend or revoke the permit or take direct enforcement action.

64.7(5) *Other terms and conditions of issued NPDES permits.* Each issued NPDES permit shall provide for and ensure the following:

a. That all discharges authorized by the NPDES permit shall be consistent with the terms and conditions of the permit; that facility expansions, production increases, or process modifications which result in new or increased discharges of pollutants must be reported by submission of a new NPDES application or, if such discharge does not violate effluent limitations specified in the NPDES permit, by submission to the director of notice of such new or increased discharges of pollutants; that the discharge of any pollutant more frequently than or at a level in excess of that identified and authorized by the permit shall constitute a violation of the terms and conditions of the permit; that if the terms and conditions of a general permit are no longer applicable to a discharge, the applicant shall apply for an individual NPDES permit;

b. That the permit may be amended, revoked and reissued, or terminated in whole or in part for the causes provided in 64.3(11) "b."

c. That the permittee shall permit the director or the director's authorized representative upon the presentation of credentials:

- (1) To enter upon permittee's premises in which an effluent source is located or in which any records are required to be kept under terms and conditions of the permit;
- (2) To have access to and copy any records required to be kept under terms and conditions of the permit;
- (3) To inspect any monitoring equipment or method required in the permit; or
- (4) To sample any discharge of pollutants.

d. That, if the permit is for a discharge from a publicly owned treatment works, the permittee shall provide notice to the director of the following:

- (1) One hundred eighty days in advance of any new introduction of pollutants into such treatment works from a new source as defined in 567—Chapter 60 if such source were discharging pollutants;
- (2) Except as specified below, 180 days in advance of any new introduction of pollutants into such treatment works from a source which would be subject to Section 301 of the Act if such source were discharging pollutants. However, the connection of such a source need not be reported if the source contributes less than 25,000 gallons of process wastewater per day at the average discharge, or contributes less than 5 percent of the organic or hydraulic loading of the treatment facility, or is not subject to a federal

pretreatment standard adopted by reference in 567—Chapter 62, or does not contribute pollutants that may cause interference or pass through; and

(3) Sixty days in advance of any substantial change in volume or character of pollutants being introduced into such treatment works by a source introducing pollutants into such works at the time of issuance of the permit.

Such notice shall include information on the quality and quantity of effluent to be introduced into such treatment works and any anticipated impact of such change in the quantity or quality of effluent to be discharged from such publicly owned treatment works.

e. That, if the permit is for a discharge from a publicly owned treatment works, the permittee shall require any industrial user of such treatment works to comply with the requirements of Sections 204(b), 307, and 308 of the Act. As a means of ensuring such compliance, the permittee shall require that each industrial user subject to the requirements of Section 307 of the Act give to the permittee periodic notice (over intervals not to exceed six months) of progress toward full compliance with Section 307 requirements. The permittee shall forward a copy of the notice to the director.

f. That the permittee at all times shall maintain in good working order and operate as efficiently as possible any facilities or systems of treatment and control which have been installed or are used by the permittee to achieve compliance with the terms and conditions of the permit. Proper operation and maintenance also include adequate laboratory control and appropriate quality assurance procedures. This provision requires the operation of backup or auxiliary facilities or similar systems which have been installed by the permittee only when such operation is necessary to achieve compliance with the conditions of the permit.

g. That if a toxic effluent standard or prohibition (including any schedule of compliance specified in such effluent standard or prohibition) is established under Section 307(a) of the Act for a toxic pollutant which is present in the permittee's discharge and such standard or prohibition is more stringent than any limitation upon such pollutant in the NPDES permit, the director shall revise or modify the permit in accordance with the toxic effluent standard or prohibition and so notify the permittee.

h. If an applicant for an NPDES permit proposes to dispose of pollutants into wells as part of a program to meet the proposed terms and conditions of an NPDES permit, the director shall specify additional terms and conditions of the issued NPDES permit which shall prohibit the proposed disposal or control the proposed disposal in order to prevent pollution of ground and surface water resources and to protect the public health and welfare. (See rule 567—62.9(455B) which prohibits the disposal of pollutants, other than heat, into wells within Iowa.)

i. That the permittee shall take all reasonable steps to minimize or prevent any discharge in violation of the permit which has a reasonable likelihood of adversely affecting human health or the environment.

j. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the terms of this permit.

64.7(6) POTW compliance—plan of action required. The owner of a publicly owned treatment works (POTW) must prepare and implement a plan of action to achieve and maintain compliance with final effluent limitations in its NPDES permit, as specified below:

a. The director shall notify the owner of a POTW of the plan of action requirement, and of an opportunity to meet with department staff to discuss the plan of action requirements. The POTW owner shall submit a plan of action to the appropriate regional field office of the department within six months of such notice, unless a longer time is needed and is authorized in writing by the director.

b. The plan of action will vary in length and complexity depending on the compliance history and physical status of the particular POTW. It must identify the deficiencies and needs of the system, describe the causes of such deficiencies or needs, propose specific measures (including an implementation schedule) that will be taken to correct the deficiencies or meet the needs, and discuss the method of financing the improvements proposed in the plan of action.

The plan may provide for a phased construction approach to meet interim and final limitations, where financing is such that a long-term project is necessary to meet final limitations, and shorter term projects may provide incremental benefits to water quality in the interim.

Information on the purpose and preparation of the plan can be found in the departmental document entitled "Guidance on Preparing a Plan of Action," available from the department's regional field offices.

c. Upon submission of a complete plan of action to the department, the plan should be reviewed and approved or disapproved within 60 days unless a longer time is required and the POTW owner is so notified.

d. The NPDES permit for the facility shall be amended to include the implementation schedule or other actions developed through the plan to achieve and maintain compliance.

This rule is intended to implement Iowa Code chapter 455B, division III, part 1 (455B.171 to 455B.187).

567—64.8(455B) Reissuance of operation and NPDES permits.

64.8(1) *Individual operation and NPDES permits.* Individual operation and NPDES permits will be reissued according to the procedures identified in 64.8(1) "a" to "c."

a. Any operation or NPDES permittee who wishes to continue to discharge after the expiration date of the permit shall file an application for reissuance of the permit at least 180 days prior to the expiration of the permit pursuant to 567—60.4(455B). For a POTW, permission to submit an application at a later date may be granted by the director. In addition, the applicant must submit or have submitted information to show:

(1) That the permittee is in compliance or has substantially complied with all the terms, conditions, requirements and schedules of compliance of the expiring operation or NPDES permit.

(2) Up-to-date information on the permittee's production levels, permittee's waste treatment practices, nature, contents, and frequency of permittee's discharge.

(3) That the discharge is consistent with applicable effluent standards and limitations, water quality standards and other legally applicable requirements listed in 64.7(2), including any additions to, or revision or modifications of, such effluent standards and limitations, water quality standards, or other legally applicable requirements during the term of the permit.

b. The director shall follow the notice and public participation procedures specified in 567—64.5(455B) in connection with each request for reissuance of an NPDES permit.

c. Notwithstanding any other provision in these rules, any new point source the construction of which is commenced after the date of enactment of the Federal Water Pollution Control Act Amendments of 1972 (October 18, 1972) and which is so constructed as to meet all applicable standards of performance for new sources shall not be subject to any more stringent standard of performance during a ten-year period beginning on the date of completion of such construction or during the period of depreciation or amortization of such facility for the purposes of Section 167 or 169 (or both) of the Internal Revenue Code, as amended through December 31, 1976, whichever period ends first.

64.8(2) *Renewal of coverage under a general permit.* Coverage under a general permit will be renewed subject to the terms and conditions in paragraphs "a" to "d."

a. If a permittee intends to continue an activity covered by a general permit beyond the expiration date of the general permit, the permittee must reapply and submit a complete Notice of Intent in accordance with 64.6(1).

b. A complete Notice of Intent for coverage under a reissued or renewed general permit must be submitted to the department within 180 days after the expiration date of a general permit.

c. A person holding a general permit is subject to the terms of the permit until it expires or a Notice of Discontinuation is submitted in accordance with 64.6(5). If the person holding a general permit continues the activity beyond the expiration date, the conditions of the expired general permit will remain in effect provided the permittee submits a complete Notice of Intent for coverage under a renewed or reissued general permit within 180 days after the expiration date of the expired general permit. If the person continues an activity for which the general permit has expired and the general permit has not been

reissued or renewed, the discharge must be permitted with an individual NPDES permit according to the procedures in 64.3(4) "a."

d. The Notice of Intent requirements shall not include a public notification when a general permit has been reissued or renewed provided the permittee has already submitted a complete Notice of Intent including the public notification requirements of 64.6(1). Another public notice is required when any information, including facility location, in the original public notice is changed.

64.8(3) Continuation of expiring operation and NPDES permits.

a. The conditions of an expired operation or NPDES permit will continue in force until the effective date of a new permit if:

- (1) The permittee has submitted a complete application under 60.4(2); and
- (2) The department, through no fault of the permittee, does not issue a new permit with an effective date on or before the expiration date of the previous permit.

b. Operation and NPDES permits continued under this subrule remain fully effective and enforceable.

c. If a permittee is not in compliance with the conditions of the expiring or expired permit, the department may choose to do any of the following:

- (1) Initiate enforcement action on the permit which has been continued;
- (2) Issue a notice of intent to deny a permit under 64.5(1);
- (3) Reissue a permit with appropriate conditions in accordance with this subrule; or
- (4) Take other actions authorized by this rule.

567—64.13(455B) Storm water discharges.

64.13(1) The following is adopted by reference: 40 CFR 122.26.

64.13(2) Small municipal separate storm sewer systems.

a. For any discharge from a regulated small municipal separate storm sewer system (MS4), the permit application must be submitted no later than March 10, 2003, if designated under this subrule.

b. All MS4s located in urbanized areas as defined by the latest decennial census and all MS4s which serve 10,000 people or more located outside urbanized areas and where the average population density is 1,000 people/square mile or more are regulated small MS4s unless waiver criteria established by the department are met and a waiver has been granted by the department.

c. Permit coverage requirements for MS4s located in urbanized areas and serving 1,000 or more people and fewer than 10,000 people may be waived if the following requirements are met:

- (1) The department has evaluated all waters of the United States that receive a discharge from the MS4, and for all such waters, the department has determined that storm water controls are not needed based on wasteload allocations that are part of an EPA approved or established total maximum daily load (TMDL) that addresses the pollutants of concern or, if a TMDL has not been developed or approved, an equivalent analysis that determines sources and allocations for the pollutants of concern. The pollutants of concern include biochemical oxygen demand, sediment or a parameter that addresses sediment (total suspended solids, turbidity or siltation), pathogens, oil and grease, and any pollutant that has been identified as a cause of impairment of any water body that will receive a discharge from the MS4.

(2) The department has determined that future discharges from the MS4 do not have the potential to result in exceedances of water quality standards, including impairment of designated uses or other significant water quality impacts including habitat and biological impacts.

d. Permit coverage requirements for MS4s located in urbanized areas and serving fewer than 1,000 people may be waived if the following requirements are met:

(1) The system is not contributing substantially to the pollutant loadings of a physically interconnected MS4 that is regulated by the NPDES storm water program.

(2) The MS4 discharges any pollutants that have been identified as a cause of impairment of any water body to which the MS4 discharges and the department has determined that storm water controls are not needed based upon wasteload allocations that are a part of an EPA approved or established TMDL that addresses the pollutants of concern.

e. Permit coverage requirements for MS4s located outside of urbanized areas and serving 10,000 or more people may be waived if the following criterion is met:

The MS4 is not discharging pollutants which are the cause of the impairment to a water body designated by the department as impaired.

f. Should conditions under which the initial waiver was granted change, the waiver may be rescinded by the department and permit coverage may be required.

g. MS4 applications shall, at a minimum, demonstrate in what manner the applicant will develop, implement and enforce a storm water management program designed to reduce the discharge of pollutants from the MS4 to the maximum extent practicable, to protect water quality and to satisfy the appropriate water quality requirements of the Clean Water Act. The manner in which the permittee will address the following items must be addressed in the application: public education and outreach on storm water impacts, public involvement and participation, illicit discharge detection and elimination, construction site storm water runoff control, postconstruction storm water management in new development and redevelopment, and pollution prevention for municipal operations. Measurable goals which the applicant intends to meet and dates by which the goals will be accomplished shall be included with the application.

64.13(3) Waivers for storm water discharge associated with small construction activity. The director may waive the otherwise applicable requirements in a general permit for storm water discharge from small construction activities as defined in 567—Chapter 60 when:

a. The value of the rainfall erosivity factor (“R” in the Revised Universal Soil Loss Equation) is less than 5 during the period of construction activity. The rainfall erosivity factor is determined in accordance with Chapter 2 of Agriculture Handbook Number 703, Predicting Soil Erosion by Water: A Guide to Conservation Planning With the Revised Universal Soil Loss Equation (RUSLE), pages 21-64, dated January 1997; or

b. Storm water controls are not needed based on a TMDL approved or established by the EPA that addresses the pollutant(s) of concern or, for nonimpaired waters that do not require TMDLs, an equivalent analysis that determines allocations for small construction sites for the pollutant(s) of concern or that determines that such allocations are not needed to protect water quality based on consideration of existing in-stream concentrations, expected growth in pollutant contributions from all sources, and a margin of safety. The pollutant(s) of concern includes sediment or a parameter that addresses sediment (such as total suspended solids, turbidity or siltation) and any other pollutant that has been identified as a cause of impairment of any water body that will receive a discharge from the construction activity.

567—64.14(455B) Transfer of title and owner or operator address change. If title to any disposal system or part thereof for which a permit has been issued under 567—64.2(455B), 567—64.3(455B) or 567—64.6(455B) is transferred, the new owners shall be subject to all terms and conditions of said permit. Whenever title to a disposal system or part thereof is changed, the department shall be notified in writing of such change within 30 days of the occurrence. No transfer of the authorization to discharge from the facility represented by the permit shall take place prior to notifying the department of the transfer of title. Whenever the address of the owner is changed, the department shall be notified in writing within

30 days of the address change. Electronic notification is not sufficient; all title transfers or address changes must be reported to the department by mail.

64.14(1) *Permits issued under rule 567—64.2(455B), 567—64.3(455B), or 567—64.6(455B), except 64.6(1) “a”(5).* If title to any disposal system or part thereof for which a permit has been issued is transferred, the new owners shall be subject to all terms and conditions of the permit. Whenever title to a disposal system or part thereof is changed, the department shall be notified in writing of such change within 30 days of the occurrence. No transfer of the authorization to discharge from the facility represented by the permit shall take place prior to notification of the department of the transfer of title. Whenever the address of the owner is changed, the department shall be notified in writing within 30 days of the address change. Electronic notification is not sufficient; all title transfers and address changes must be reported to the department by mail.

64.14(2) *Permits issued under 64.6(1) “a”(5).* When the operator of a facility changes, the department must be notified of the transfer within 30 days. When a discharge is covered by the general permit, the operator of record shall be subject to all terms and conditions of the permit. No transfer of the authorization to discharge from the facility represented by the permit shall take place prior to notification of the department of the transfer. Whenever the address of the operator is changed, the department shall be notified in writing within 30 days of the address change. Electronic notification is not sufficient; all transfers and address changes must be reported to the department by mail.

Rules 567—64.3(455B) to 567—64.14(455B) are intended to implement Iowa Code section 455B.173.

567—64.15(455B) General permits issued by the department. The following is a list of general permits adopted by the department through the Administrative Procedure Act, Iowa Code chapter 17A, and the term of each permit.

64.15(1) Storm Water Discharge Associated with Industrial Activity, NPDES General Permit No. 1, effective October 1, 2007, to October 1, 2012. Facilities assigned Standard Industrial Classification 1442, 2951, or 3273, and those facilities assigned Standard Industrial Classification 1422 or 1423 which are engaged primarily in rock crushing are not eligible for coverage under General Permit No. 1.

a. Part I, provision B, section 1, paragraph A of General Permit No. 2 is amended to read as follows:

Except for discharges identified under Parts I.B.2. and I.B.3., this permit may authorize the discharge of storm water associated with industrial activity from construction sites, (those sites or common plans of development or sale that will result in the disturbance of one or more acres of total land area),

b. Part VIII, under the definition: Storm water discharge associated with industrial activity, paragraph (x) of General Permit No. 2 is amended to read as follows:

Construction activity including clearing, grading and excavation activities except: operations that result in the disturbance of less than one acre of total land area which is not part of a larger common plan of development or sale.

64.15(3) Storm Water Discharge Associated with Industrial Activity from Asphalt Plants, Concrete Batch Plants, Rock Crushing Plants, and Construction Sand and Gravel Facilities, NPDES General Permit No. 3, effective October 1, 2007, to October 1, 2012. General Permit No. 3 authorizes storm water discharges from facilities primarily engaged in manufacturing asphalt paving mixtures and which are classified under Standard Industrial Classification 2951, primarily engaged in manufacturing Portland cement concrete and which are classified under Standard Industrial Classification 3273, those facilities assigned Standard Industrial Classification 1422 or 1423 which are primarily engaged in the crushing, grinding or pulverizing of limestone or granite, and construction sand and gravel facilities which are classified under Standard Industrial Classification 1442. 567—64.16(455B) Fees.

64.16(1) A person who applies for an individual permit or coverage under a general permit to construct, install, modify or operate a disposal system shall submit along with the application an application fee or a permit fee or both as specified in 64.16(3). Certain individual facilities shall also be required to submit annual fees as specified in 64.16(3) “b.” Fees shall be assessed based on the type of permit coverage the applicant requests, either as general permit coverage or as an individual permit. For a construction permit, an application fee must be submitted with the application. For General Permits Nos. 1, 2, 3 and 5, the applicant has the option of paying an annual permit fee or a multiyear permit fee at the time the Notice of Intent for coverage is submitted.

For individual storm water only permits, a one-time, multiyear permit fee must be submitted at the time of application. A storm water only permit is defined as an NPDES permit that authorizes the discharge of only storm water and any allowable non-storm water as defined in the permit. For all other non-storm water NPDES permits and operation permits, the applicant must submit an application fee at the time of application and the appropriate annual fee on a yearly basis. A non-storm water NPDES permit is defined as any individual NPDES permit or operation permit issued to a municipality, industry, semipublic entity, or animal feeding operation that is not an individual storm water only permit. If a facility needs coverage under more than one NPDES permit, fees for each permit must be submitted appropriately.

Fees are nontransferable. If the application is returned to the applicant by the department, the permit fee will be returned. No fees will be returned if the permit or permit coverage is suspended, revoked, or modified, or if the activity is discontinued. Failure to submit the appropriate fee at the time of application renders the application incomplete, and the department shall suspend processing of the application until the fee is received. Failure to submit the appropriate annual fee may result in revocation or suspension of the permit as noted in 64.3(11) “f.”

64.16(2) Payment of fees. Fees shall be paid by check or money order made payable to the “Iowa Department of Natural Resources.”

For facilities needing coverage under both a storm water only permit and a non-storm water NPDES permit, separate payments shall be made according to the fee schedule in 64.16(3).

64.16(3) Fee schedule. The following fees have been adopted:

a. For coverage under the NPDES general permits, the following fees apply:

(1) Storm Water Discharges Associated with Industrial Activity, NPDES General Permit No. 1.

Annual Permit Fee \$175(per year)

or

Five-year Permit Fee \$700

Four-year Permit Fee \$525

Three-year Permit Fee \$350

All fees are to be submitted with the Notice of Intent for coverage under the general permit.

(2) Storm Water Discharge Associated with Industrial Activity for Construction Activities, NPDES General Permit No. 2. The fees are the same as those specified for General Permit No. 1 in subparagraph (1) of this paragraph.

(3) Storm Water Discharge Associated with Industrial Activity from Asphalt Plants, Concrete Batch Plants, and Rock Crushing Plants, NPDES General Permit No. 3. The fees are the same as those specified for General Permit No. 1 in subparagraph (1) of this paragraph.

(4) Discharge from Private Sewage Disposal Systems, NPDES Permit No. 4. No fees shall be assessed.

(5) Discharge from Mining and Processing Facilities, NPDES General Permit No. 5.

Annual Permit Fee \$125 (per year)

or

Five-year Permit Fee \$500

Four-year Permit Fee \$400

Three-year Permit Fee \$300

New facilities seeking General Permit No. 5 coverage shall submit fees with the Notice of Intent for coverage. Maximum coverage is for five years. Coverage may also be obtained for four years, three years, or one year, as shown in the fee schedule above. Existing facilities shall submit annual fees by August 30 of every year, unless a multiyear fee payment was received in an earlier year. In the event a facility is no longer eligible to be covered under General Permit No. 5, the remainder of the fees previously paid by the facility shall be applied toward its individual permit fees.

b. Individual NPDES and operation permit fees. The following fees are applicable for the described individual NPDES permit:

(1) For permits that authorize the discharge of only storm water associated with industrial activity and any allowable non-storm water, a five-year permit fee of \$1,250 must accompany the application.

(2) For permits that authorize the discharge of only storm water from municipal separate storm sewer systems and any allowable non-storm water, a five-year permit fee of \$1,250 must accompany the application.

(3) For operation and non-storm water NPDES permits not subject to subparagraphs (1) and (2), a single application fee of \$85 as established in Iowa Code section 455B.197 is due at the time of application. The application fee is to be submitted with the application forms (as required by 567—Chapter 60) at the time of a new application, renewal application, or amendment application. Before an approved amendment request submitted by a facility holding a non-storm water NPDES permit can be processed by the department, the application fee must be submitted. Application fees will not be charged to facilities holding non-storm water NPDES permits when an amendment request is initiated by the director, when the requested amendment will correct an error in the permit, or when there is a transfer of title or change in the address of the owner as noted in 567—64.14(455B).

(4) For every major and minor municipal facility, every semipublic facility, every major and minor industrial facility, every facility that holds an operation permit (no wastewater discharge into surface waters), and every open feedlot animal feeding operation required to hold a non-storm water NPDES permit, an annual fee as established in Iowa Code section 455B.197 is due by August 30 of each year.

(5) For every municipal water treatment facility with a non-storm water NPDES permit, no fee is charged (as established in Iowa Code section 455B.197).

(6) For a new facility, an annual fee as established in Iowa Code section 455B.197 is due 30 days after the new permit is issued.

c. Wastewater construction permit fees. A single construction permit fee as established in Iowa Code section 455B.197 is due at the time of construction permit application submission.

64.16(4) Fee refunds for storm water general permit coverage—pilot project. Rescinded IAB 10/16/02, effective 11/20/02.

64.16(5) “Discharge Associated with Well Construction Activities,” NPDES General Permit No. 6. No fees shall be assessed.

64.16(6) “Pesticide General Permit (PGP) for Point Source Discharges to Waters of the United States From the Application of Pesticides,” NPDES General Permit No. 7. No fees shall be assessed.

567—64.17(455B) Validity of rules. If any section, paragraph, sentence, clause, phrase or word of these rules, or any part thereof, be declared unconstitutional or invalid for any reason, the remainder of said rules shall not be affected thereby and shall remain in full force and effect.

567—64.18(455B) Applicability. This chapter shall apply to all waste disposal systems treating or intending to treat sewage, industrial waste, or other waste except waste resulting from livestock or poultry operations. All livestock and poultry operations constituting animal feeding operations as defined in 567—Chapter 65 shall be governed by the requirements contained in Chapter 65. However, if an animal feeding operation is required to apply for and obtain an NPDES permit, the provisions of this chapter relating to notice and public participation, to the terms and conditions of the permit, to the reissuance of the permit and to monitoring, reporting and record-keeping activities shall apply.

These rules are intended to implement Iowa Code chapter 455B, division III, part 1.

CHAPTER 21
ELECTION FORMS AND INSTRUCTIONS
[Prior to 7/13/88, see Secretary of State[750], Ch 11]

DIVISION I
GENERAL ADMINISTRATIVE PROCEDURES

721—21.1(47) Emergency election procedures. The state commissioner of elections may exercise emergency powers over any election being held in a district in which either a natural or other disaster or extremely inclement weather has occurred. The state commissioner may also exercise emergency powers during an armed conflict involving United States armed forces, or mobilization of those forces, or if an election contest court finds that there were errors in the conduct of an election making it impossible to determine the result.

21.1(1) Definitions.

“*Commissioner*” means the county commissioner of elections.

“*Election contest court*” means any of the courts specified in Iowa Code sections 57.1, 58.4, 61.1, 62.1 and 376.10.

“*Extremely inclement weather*” means a natural occurrence, such as a rainstorm, windstorm, ice storm, blizzard, tornado or other weather conditions, which makes travel extremely dangerous or which threatens the public peace, health and safety of the people or which damages and destroys public and private property.

“*Natural disaster*” means a natural occurrence, such as a fire, flood, blizzard, earthquake, tornado, windstorm, ice storm, or other events, which threatens the public peace, health and safety of the people or which damages and destroys public and private property.

“*Other disaster*” means an occurrence caused by machines or people, such as fire, hazardous substance or nuclear power plant accident or incident, which threatens the public peace, health and safety of the people or which damages and destroys public and private property.

“*State commissioner*” means the state commissioner of elections.

21.1(2) Notice of natural or other disaster or extremely inclement weather. The county commissioner of elections, or the commissioner’s designee, may notify the state commissioner of elections that due to a natural or other disaster or extremely inclement weather an election cannot safely be conducted in the time or place for which the election is scheduled to be held. If the commissioner or the commissioner’s designee is unable to transmit notice of the hazardous conditions, the notice may be given by any elected county official. Verification of the commissioner’s agreement with the severity of the conditions and the danger to the election process shall be transmitted to the state commissioner as soon as possible. Notice may be given by telephone or by facsimile machine, but a signed notice shall also be delivered to the state commissioner.

21.1(3) Declaration of emergency due to natural or other disaster or extremely inclement weather. After receiving notice of hazardous conditions, the state commissioner of elections, or the state commissioner’s designee, may declare that an emergency exists in the affected precinct or precincts. A copy of the declaration of the emergency shall be provided to the commissioner.

21.1(4) Emergency modifications to conduct of elections. When the state commissioner of elections has declared that an emergency exists due to a natural or other disaster or to extremely inclement weather, the county commissioner of elections, or the commissioner’s designee, shall consult with the state commissioner to develop a plan to conduct the election under the emergency conditions. All modifications to the usual method for conducting elections shall be approved in advance by the state commissioner unless prior approval is impossible to obtain.

Modifications may be made to the method for conducting the election including relocation of the polling place, postponement of the hour of opening the polls, postponement of the date of the election if no candidates for federal offices are on the ballot, reduction in the number of precinct election officials in nonpartisan elections, or other reasonable and prudent modifications that will permit the election to be conducted.

21.1(5) *Relocation of polling place.* The substitute polling place shall be as close as possible to the usual polling place and shall be within the same precinct if possible. Preference shall be given to buildings which are accessible to the elderly and disabled. Buildings supported by taxation shall be made available without charge by the authorities responsible for their administration. If it is necessary, more than one precinct may be located in the same room.

A notice of the location of the substitute polling place shall be posted on the door of the former polling place not later than one hour before the scheduled time for opening the polls or as soon as possible. If it is unsafe or impossible to post the sign on the door of the former polling place, the notice shall be posted in some other visible place at or near the site of the former polling place. If time permits, notice of the relocation of the polling place shall be published in the same newspaper in which notice of election was published, otherwise notice of relocation may be published in any newspaper of general circulation in the political subdivision which will appear on or before election day. The commissioner shall inform all broadcast media and print news organizations serving the jurisdiction of the modifications.

21.1(6) *Postponement of election.* An election, other than an election at which a federal office appears on the ballot, may be postponed until the following Tuesday. If the election involves more than one precinct, the postponement must include all precincts within the political subdivision. If the election is postponed, ballots shall not be reprinted to reflect the modification in the election date. The date of the close of voter preregistration by mail for the election shall not be extended. Precinct election registers prepared for the original election date may be used or reprinted at the commissioner's discretion.

On the day that the postponed election is actually held, all election day procedures must be repeated.

21.1(7) *Absentee voting in postponed elections.* Absentee ballots shall be delivered to voters pursuant to Iowa Code section 53.22 until the date the election is actually held. Absentee ballots shall be accepted at the commissioner's office until the hour the polls close on the date the election is held. Absentee ballots which are postmarked no later than the day before the election is actually held shall be accepted if received no later than the time prescribed by the Iowa Code for the usual conduct of the election. The time shall be calculated from the date on which the election is held, not the date for which the election was originally scheduled. However, if absentee ballots have been tabulated before the election is postponed, the absentee ballots shall be sealed in an envelope by the absentee and special voters precinct board and stored securely until the date the election is actually held. The sealed envelopes shall be opened by the absentee and special voters precinct board on the date the election is actually held, counters on the tabulating equipment (if any) shall be reset to zero, and all absentee ballots tabulated on the original election date shall be retabulated.

21.1(8) *Absentee and special voters precinct board in postponed elections.* The absentee and special voters precinct board shall meet to consider provisional ballots at the times specified in Iowa Code sections 50.22 and 52.23, calculated from the date the election is held. No absentee ballots shall be counted until the date the election is held.

21.1(9) *Canvass of votes in postponed elections.* The canvass of votes shall also be rescheduled for one week after the originally scheduled canvass date.

21.1(10) *Postponements made on election day.* If the emergency is declared while the polls are open and the decision is made to postpone the election, each precinct polling place in the political subdivision shall be notified to close its doors and to halt all voting immediately. People present in the polling place who are waiting to vote shall not be given ballots. People who have received and marked their ballots shall deposit them in the ballot box; unmarked ballots may be returned to the precinct election officials.

The precinct election officials shall seal all ballots which were cast before the declaration of the emergency in secure containers. The containers shall be clearly marked as ballots from the postponed election. If it is safe to do so, the ballot containers, election register, and other election supplies shall be transported to the commissioner's office. The ballots shall be stored in a secure place. If it is unsafe to travel to the commissioner's office, the chairperson of the precinct election board shall see that the ballots and the election register are securely stored until it is safe to return them to the commissioner. If no contest is pending six months after the canvass for the election is completed, the unopened, sealed ballot containers shall be destroyed.

If automatic tabulating equipment is used, the automatic tabulating equipment shall be closed and sealed without printing the results. Before the date the election is held, the automatic tabulating equipment shall be reset to zero. Documents showing the progress of the count, if any, shall be sealed in an envelope and stored. No one shall reveal the progress of the count. After six months, the sealed envelope containing the vote totals shall be destroyed if no contest is pending.

21.1(11) *Records kept.* The state commissioner of elections shall maintain records of each emergency declaration. The records of emergency declarations for federal elections shall be kept for 22 months, and records for all other elections shall be kept for six months following the election. The records shall include the following information:

- a.* The county in which the emergency occurred.
- b.* The date and time the emergency declaration was requested.
- c.* The name and title of the person making the request.
- d.* Name and date of the election affected.
- e.* The jurisdiction for which the election is to be conducted (school, city, county, or other).
- f.* The number of precincts in the jurisdiction.
- g.* The number of precincts affected by the emergency.
- h.* The nature of the emergency, i.e., natural or other disaster, or extremely inclement weather.
- i.* The date or dates of the occurrence of the natural or other disaster or extremely inclement weather.
- j.* Conditions affecting the conduct of the election.
- k.* Whether the polling places may safely be opened on time.
- l.* Action taken: such as moving the polling place, change voting system, postpone election until the following Tuesday.
- m.* Method to be used to inform the public of changes made in the election procedure.
- n.* The signature of the state commissioner or the state commissioner's designee who was responsible for declaring the emergency.

21.1(12) *Federal elections.*

a. If an emergency occurs that will adversely affect the conduct of an election at which candidates for federal office will appear on the ballot, the election shall not be postponed or delayed. Emergency measures shall be limited to relocation of polling places, modification of the method of voting, reduction of the number of precinct election officials at a precinct and other modifications of prescribed election procedures which will enable the election to be conducted on the date and during the hours required by law.

The primary election held in June of even-numbered years and the general election held in November of even-numbered years shall not be postponed. Special elections called by the governor pursuant to Iowa Code section 69.14 shall not be postponed unless no federal office appears on the ballot.

b. If a federal or state court order extends the time established for closing the polls pursuant to Iowa Code section 49.73, any person who votes after the statutory hour for closing the polls shall vote only by casting a provisional ballot pursuant to Iowa Code section 49.81. Provisional ballots cast after the statutory hour for closing the polls shall be sealed in a separate envelope from provisional ballots cast during the statutory polling hours. The absentee and special voters precinct board shall tabulate and report the results of the two sets of provisional ballots separately.

21.1(13) *Military emergencies.* A voter who is entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA) and Iowa Code chapter 53, division II, "Absent Voting by Armed Forces," may return an absentee ballot via electronic transmission only if the voter is located in an area designated by the U.S. Department of Defense to be an imminent danger pay area. Procedures for the return of absentee ballots by electronic transmission are described in subrule 21.320(4).

21.1(14) *Election contest emergency.* If an election contest court finds that there were errors in the conduct of an election which make it impossible to determine the result of the election, the contest court shall notify the state commissioner of elections of its finding. The state commissioner shall order a repeat

election to be held. The repeat election date shall be set by the state commissioner. The repeat election shall be conducted under the state commissioner's supervision.

The repeat election shall be held at the earliest possible time, but it shall not be held earlier than 14 days after the date the election was set aside. Voter registration, publication, equipment testing and other applicable deadlines shall be calculated from the date of the repeat election.

The repeat election shall be conducted under the same procedures required for the election that was set aside, except that all known errors in preparation and procedure shall be corrected. The nominations from the initial election shall be used in the repeat election unless the contest court specifically rejects the initial nomination process in its findings. Precinct election officials for the repeat election may be replaced at the discretion of the auditor.

The following materials prepared for the original election shall be used or reconstructed for the repeat election:

Ballots (showing the date of repeat election). This may be stamped on ballots printed for the original election.

Notice of election (showing the date of repeat election).

This rule is intended to implement Iowa Code section 47.1.

721—21.2(47) Electronic submission of absentee ballot applications and affidavits of candidacy. Absentee ballot applications and affidavits of candidacy may be submitted electronically using either fax or E-mail.

21.2(1) *Electronic copies of absentee ballot applications and affidavits of candidacy accepted for filing.* Assuming that all other legal requirements are met, absentee ballot applications and affidavits of candidacy required by Iowa Code chapters 43, 44, 45, 161A, 260C, 277, 376 and 420 may be submitted electronically by either fax or E-mail if presented to the appropriate filing officer as an exact copy of the original and if the submission is in compliance with subrule 21.2(2).

21.2(2) *Original absentee ballot applications.* The original absentee ballot application submitted electronically shall also be mailed to the commissioner. The envelope bearing the original absentee ballot application shall be postmarked not later than the Friday before the election. This subrule shall not apply to documents submitted electronically by UOCAVA voters pursuant to rule 721—21.320(53).

a. The voter's absentee ballot shall be rejected by the absentee and special voters precinct board if the original absentee ballot application filed electronically is not received in the mail by the time the polls close on election day.

b. The voter's absentee ballot shall be rejected by the absentee and special voters precinct board if the postmark on the envelope containing the original absentee ballot application is later than the Friday before the election.

21.2(3) *Original affidavits of candidacy.* The original copy of an affidavit of candidacy submitted electronically shall also be filed with the appropriate commissioner. The envelope bearing the original affidavit (if any) shall be postmarked not later than the last day to file the document.

a. The filing shall be void if the original affidavit of candidacy filed electronically is not received within seven days after the filing deadline for the original affidavit of candidacy.

b. The filing shall be void if the postmark on the envelope containing the original affidavit of candidacy is later than the filing deadline.

c. If an affidavit of candidacy filing is voided because the original affidavit of candidacy submitted by facsimile machine was postmarked too late or arrives too late, the person who filed the document shall be notified immediately in writing.

721—21.3(49,48A) Voter identification documents.

21.3(1) *Identification documents for persons other than election day registrants.* Unless the person is registering to vote at the polls on election day, precinct election officials shall accept the identification documents listed in Iowa Code section 48A.8 from any person who is asked or required to present identification pursuant to Iowa Code section 49.77 as amended by 2009 Iowa Acts, House File 475.

21.3(2) *Identification for election day registrants.*

a. A person who applies to register to vote on election day shall provide proof of identity and residence pursuant to Iowa Code section 48A.7A in the precinct where the person is applying to register and vote.

b. Any registered voter who attests for another person registering to vote at the polls on election day shall be a registered voter of the same precinct. The registered voter may be a precinct election official or a pollwatcher, but may not attest for more than one person applying to register at the same election.

21.3(3) *Current and valid identification.*

a. “Current and valid” or “identification,” for the purposes of this rule, means identification that meets the following criteria:

(1) The expiration date on the identification has not passed. An identification is still valid on the expiration date. An Iowa nonoperator’s identification that shows “none” as the expiration date shall be considered current and valid.

(2) The identification has not been revoked or suspended.

b. A current and valid identification may include a former address.

21.3(4) *Identification not provided.* A person who has been requested to provide identification and does not provide it shall vote only by provisional ballot pursuant to Iowa Code section 49.81. However, a person who is registering to vote on election day pursuant to Iowa Code section 48A.7A may establish identity and residency in the precinct by written oath of a person who is registered to vote in the precinct.

This rule is intended to implement Iowa Code section 48A.7A and section 49.77 as amended by 2009 Iowa Acts, House File 475, and P.L. 107-252, Section 303.

21.50(1) *Inspection required.* Before any building may be designated for use as a polling place, the county commissioner of elections or the commissioner's designee shall inspect the building to determine whether it is accessible to persons with disabilities.

21.50(2) *Frequency of inspection.* Polling places that have been inspected using the Polling Place Accessibility Survey Form prescribed in subrule 21.50(4) shall be reinspected if structural changes are made to the building or if the location of the polling place inside the building is changed.

21.50(3) *Review of accessibility.* Not less than 90 days before each primary election, the commissioner shall determine whether each polling place needs to be reinspected.

21.50(4) *Standards for determining polling place accessibility.* The survey form available on the state commissioner's Web site titled "Polling Place Accessibility Survey" shall be used to evaluate polling places for accessibility to persons with disabilities.

The term "off-street parking" used in the polling place accessibility survey means parking places in lots separated from the street and includes angle parking along the street if the accessible route from the parking place to the polling place is entirely out of the path of traffic. Parking arrangements that require either the driver or passengers of the vehicle to go into the traveled part of the street are not accessible.

An access aisle at street level that is at least 60 inches wide and the same length as each accessible parking space shall be provided. An accessible public sidewalk curb ramp shall connect the access aisle to the continuous passage to the polling place. At least one parking place shall be van-accessible with a 96-inch access aisle connected to the continuous passage to the polling place by an accessible public sidewalk curb ramp. Two accessible parking spaces may share a common access aisle.

21.50(5) *Temporary waiver of accessibility requirements.* Notwithstanding the waiver provisions of 721—Chapter 10, if the county commissioner is unable to provide an accessible polling place for any precinct, the commissioner shall apply for a temporary waiver of accessibility requirements pursuant to this subrule. Applications shall be filed with the secretary of state not later than 60 days before the date of any scheduled election. If a waiver is granted, it shall be valid for two years from the date of approval by the secretary of state.

a. Each application shall include the following documents:

- (1) Application for Temporary Waiver of Accessibility Requirements.
- (2) A copy of the Polling Place Accessibility Survey Form for the polling place to be used.
- (3) A copy of the Polling Place Accessibility Survey Form for any other buildings that were surveyed and rejected as possible polling place sites for the precinct.

b. If an accessible place becomes available at least 30 days before an election, the commissioner shall change polling places and shall notify the secretary of state. The notice shall include a copy of the Polling Place Accessibility Survey Form for the new polling place.

21.50(6) *Emergency waivers.* During the 60 days preceding an election, if a polling place becomes unavailable for use due to fire, flood, or changes made to the building, or for other reasons, the commissioner must apply for an emergency waiver of accessibility requirements in order to move the polling place to an inaccessible building. Emergency waiver applications must be filed with the secretary of state as soon as possible before election day. To apply for an emergency waiver, the commissioner shall send the following documents:

- a. Application for Temporary Waiver of Accessibility Requirements.
- b. A copy of the Polling Place Accessibility Survey Form for the polling place selected.
- c. A copy of the Polling Place Accessibility Survey Form for any other buildings that were surveyed and rejected as possible polling place sites for this precinct (if any).

21.50(7) *Application form.* The form posted on the state commissioner's Web site titled "Temporary Waiver of Accessibility Requirements" shall be used to apply for a temporary waiver of accessibility requirements.

21.50(8) *Evaluation of waivers.* When the secretary of state receives waiver applications, the applications shall be reviewed carefully. A response shall be sent to the commissioner within one week by E-mail or by fax to notify the commissioner when the waiver request was received and whether additional information is needed.

21.50(9) *Granting waivers.* If the secretary of state determines from the documents filed with the waiver request that conditions justify the use of a polling place that does not meet accessibility standards, the secretary of state shall grant the waiver of accessibility requirements. If the secretary of state determines from the documents filed with the waiver request that all potential polling places have been surveyed and no accessible place is available, and the available building cannot be made temporarily accessible, the waiver shall be granted.

21.50(10) *Notice required.* Each notice of election published pursuant to Iowa Code section 49.53 shall clearly describe which polling places are inaccessible. The notice shall include a description of the services available to persons with disabilities who live in precincts with inaccessible polling places. The notice shall be in substantially the following form:

Any voter who is physically unable to enter a polling place has the right to vote in the voter's vehicle. For further information, please contact the county auditor's office at the telephone or TTY number or E-mail address listed below:

Telephone: _____ TTY: _____ E-mail address: _____

21.50(11) *Denial of waiver requests.* The secretary of state shall review each waiver request. The secretary of state shall consider the totality of the circumstances as shown by the information on the waiver request, information contained in previous applications for waivers for the same precinct and for other precincts in the county, and other relevant available information. The waiver request may be denied if it appears that the commissioner has not made a good-faith effort to find an accessible polling place. If the waiver request is denied, the secretary of state shall notify the commissioner in writing of the reason for denying the request.

This rule is intended to implement Iowa Code section 49.21.

721—21.51 to 21.74 Reserved.

721—21.75(49) *Voting centers for certain elections.* The commissioner may establish voting centers for the regular city election, city primary election, city runoff election, regular school election, and special elections.

21.75(1) *Definition.*

"*Voting center*" means a location established by the commissioner for the purpose of providing ballots to all registered voters who are qualified to vote in a particular jurisdiction for a regular city election, city primary election, city runoff election, regular school election, or special election.

21.75(2) *Minimum requirements.*

a. *Establishment.* One or more voting centers may be established in lieu of precinct polling places for the elections at which the use of voting centers is permitted. Regular polling place sites that are accessible to people with disabilities may be used as voting centers for any election at which the use of voting centers is permitted. Other suitable locations may also be used.

b. *Location of voting centers.* If voting centers are established for an election, at least one voting center must be located within the boundaries of the political subdivision for which the election is being conducted. At the commissioner's discretion, additional vote centers may be established as long as the

voting center is located within the boundaries of the political subdivision for which the election is being conducted.

c. Accessibility. A voting center is subject to the requirements of Iowa Code section 49.21 relating to accessibility to persons who are elderly and persons with disabilities and relating to the posting of signs.

21.75(3) Hours. Voting center hours shall be the same as permitted for an election pursuant to Iowa Code section 49.73.

21.75(4) Publications. The location of each voting center shall be published in the notice of election by the commissioner in the same manner as the location of polling places is required to be published. The notice of election shall also include a description of the voting center in substantially the following form:

For the _____ election to be held on [date], voting centers will be available. Any registered voter of [jurisdiction name] may vote at any of the following places in this election:

[List addresses of voting centers.]

21.75(5) Posting notices at regular polling places on election day. If voting centers are established in lieu of regular polling places for an election, the commissioner shall post a notice of voting center locations, not later than the hour at which the polls open on the day of the election, on each door to the usual polling place in the precinct. The notice shall remain posted until the polls have closed.

21.75(6) I-Voters use prohibited. The commissioner shall not provide direct access from voting centers to the I-Voters system on election day.

21.75(7) Determining ballot rotations. For the purposes of determining ballot rotations pursuant to Iowa Code section 49.31 in an election for which the commissioner has established voting centers, the commissioner may use either precincts established pursuant to Iowa Code sections 49.3 to 49.5 or consolidated precincts established pursuant to Iowa Code section 49.11, subsection 3, paragraph “a.” If the commissioner uses consolidated precincts established pursuant to Iowa Code section 49.11, subsection 3, paragraph “a,” the commissioner shall use the same consolidated precincts used in the last regularly scheduled election conducted for the political subdivision in which voting centers were not used.

21.75(8) Operation of voting centers.

a. Election registers and voter lists. Each voting center shall have an election register containing the names, addresses and voter statuses of all registered voters who are eligible to vote in that election. The election register may be a paper list or may be available on computers in an electronic format, rather than as an interactive connection to I-Voters.

b. Election day registration at voting centers. A person who needs to register to vote may register and vote at a voting center provided that the person has appropriate identification and is a resident of the jurisdiction served by the voting center.

c. Voters reporting address changes at voting centers. Any person who is already registered in the county and updates the person's voter registration address at a voting center shall show identification listed in Iowa Code section 48A.8. Persons unable to provide requested identification shall be offered a provisional ballot pursuant to Iowa Code section 49.81.

d. Ballots. Each voting center shall have all ballot styles necessary to provide a ballot to any voter who is eligible to vote in the election for the jurisdiction served by the voting center.

e. Precinct election officials. Voting centers shall be administered by a minimum of three precinct election officials selected pursuant to Iowa Code sections 49.12 to 49.16. These officials shall be trained before each election and shall have specific instructions regarding the differences between voting centers and polling places.

f. Ballot boxes used with optical scan voting equipment at voting centers. The commissioner may instruct two precinct election officials not of the same political party to open the ballot box periodically throughout election day to ensure the ballots are stacking evenly in the ballot box to prevent a voting equipment malfunction. The precinct election officials charged with inspecting the ballot box shall ensure the ballot box is locked and secured at all times. As an alternative to this procedure, the commissioner may supply any voting center with additional ballot boxes and the precinct election officials may move

the optical scan voting equipment to a new ballot box if necessary. All ballot boxes containing voted ballots shall be locked and secured by the precinct election officials at all times.

21.75(9) *Postelection review of voter participation.*

a. Within 45 days after the election, the commissioner shall review the signed declarations of eligibility or the signed election registers from each voting center, and if any person is found to have voted in more than one voting center in the election, the commissioner shall immediately notify the county attorney.

b. The notice to the county attorney shall include a copy of the person's voter registration record and copies of the declarations of eligibility signed by the voter. The notice shall also include a reference to Iowa Code sections 39A.2(2) and 49.11(3) "b."

This rule is intended to implement Iowa Code sections 49.9 and 49.11.

DIVISION III ABSENTEE VOTING

721—21.300(53) Satellite absentee voting stations.

21.300(1) *Establishment of stations.* Satellite absentee voting stations may be established by the county commissioner of elections or by a petition of eligible electors of the jurisdiction conducting the election.

a. Satellite absentee voting stations established by the county commissioner. The county commissioner of elections may designate locations in the county for satellite absentee voting stations. Satellite absentee voting stations established by the commissioner shall be accessible to elderly and disabled voters. Satellite absentee voting stations must also be established so as to provide for voting in secret and ballot security.

b. Satellite absentee voting stations established after receipt of a valid petition. A petition requesting a satellite absentee voting station shall be substantially in the form titled "Petition Requesting Satellite Absentee Voting Station" available on the state commissioner's Web site. If the commissioner receives a petition requesting a satellite absentee voting station on or before the petition deadline set forth in Iowa Code section 53.11, the commissioner shall determine the validity of the petition within 24 hours. A petition requesting a satellite absentee voting station is valid if it contains signatures of not less than 100 eligible electors of the jurisdiction conducting the election. Electors signing the petition must include their signature, house number, street, and date the petition was signed. Signatures on lines not containing all of the required information shall not be counted. The heading on each page of the petition shall include the satellite location requested and the election name or date for which the location is requested. Signatures on petition pages without the required heading shall not be counted.

c. Mandatory rejection of certain satellite absentee voting stations. Otherwise valid petitions for satellite absentee voting stations shall be rejected within four days of the commissioner's receipt of the petition if:

- (1) The site requested is not accessible to elderly and disabled voters,
- (2) The site requested has other physical limitations that make it impossible to meet the requirements for ballot security and secret voting, or
- (3) The owner of the site refuses permission to locate the satellite absentee voting station at the site requested on the petition.

d. Discretionary rejection of certain satellite absentee voting stations. Otherwise valid petitions for satellite absentee voting stations may be rejected within four days of the commissioner's receipt of the petition if:

- (1) A petition is received requesting satellite voting for a city runoff election and a special election is scheduled to be held between the regular city election and a city runoff election.
- (2) The owner of the site demands payment for its use.

e. Provision of ballots. Only ballots from the county in which the site is located may be provided at the satellite absentee voting station. Ballots must be provided for the precinct in which the satellite absentee voting station is located; however, it is not necessary to provide ballots from all of the precincts in the political subdivision for which the election is being conducted.

21.300(2) Notice provided. Notice shall be published at least seven days before the opening of any satellite absentee voting station. If more than one satellite absentee voting station will be provided, a single publication may be used to notify the public of their availability. If it is not possible to publish the notice at least seven days before the station opens due to the receipt of a petition, the notice shall be published as soon as possible.

A notice shall also be posted at each satellite absentee voting station at least seven days before the opening of the satellite absentee voting station. The notice shall remain posted as long as the satellite absentee voting station is scheduled for service. If it is not possible to post the notice at least seven days before the station opens due to the receipt of a petition, the notice shall be posted as soon as possible.

Both the published and posted notices shall include the following information:

- e.* An announcement that voter registration forms will be available for new registrations in the county and that changes in the registration records of people who are currently registered within the county may be made at any time.

If the satellite absentee voting station is located in a building with more than one public entrance, brief notices of the location of the satellite absentee voting station shall be posted on building directories, bulletin boards, or doors. These notices shall be posted no later than the time the station opens and shall be removed immediately after the satellite absentee voting station has ceased operation for an election.

21.300(3) *Staff.* Satellite absentee voting station workers may be selected from among the staff members of the commissioner's office, from the election board panel drawn up pursuant to Iowa Code sections 49.15 and 49.16, or a combination of these two sources. Compensation of workers selected from the election board panel shall be at the rate provided in Iowa Code section 49.20.

At least three people shall be assigned to work at each satellite absentee voting station; more workers may be added at the commissioner's discretion. All workers must be registered voters of the county, and for primary and general elections the workers must be registered with a political party; however, workers not affiliated with any party may be assigned to work at a satellite absentee voting station as long as not more than one-third of the workers assigned to a particular satellite absentee voting station are not affiliated with a political party. For all elections, no more than a simple majority of the workers shall be members of the same political party.

People who are prohibited from working at the polls pursuant to Iowa Code section 49.16 may not work at satellite absentee voting stations.

21.300(4) *Oath required.* Before the first day of service at a satellite absentee voting station, each worker shall take an oath substantially in the form titled "Election Official/Clerk Oath" available on the state commissioner's Web site. The oath must be taken before each election.

21.300(6) *Ballot transport and storage.* At the commissioner's discretion the ballots may be transported between the commissioner's office and the satellite absentee voting station by the workers who will be on duty that day, or by two people of different political parties who have been designated as couriers by the commissioner. It is not necessary for the same people to transport the ballots in both directions.

If the ballots are transported by the satellite absentee voting station workers, two workers who are members of different political parties and the ballots must travel together in the same vehicle.

Ballots may be stored at the satellite absentee voting station during hours when the station is closed only if they are kept in a locked cabinet or container. The cabinet must be located in a room which is kept locked when not in use. Voted absentee ballots must be delivered to the commissioner's office at least once each week.

21.300(7) *Ballot receipts.* Satellite absentee voting station workers shall sign receipts for the ballots taken to the satellite absentee voting site. The receipt shall be substantially in the form titled "Satellite Absentee Voting Station Ballot Record and Receipt" available on the state commissioner's Web site. A copy of the ballot record and receipt shall be retained in the commissioner's office. The original shall be sent with the ballots to the satellite absentee voting station.

21.300(8) *Arrangement of the satellite absentee voting station.* Protection of the security of the ballots (both voted and unvoted) and the secrecy of each person's vote shall be considered in the arranging of the satellite absentee voting station.

a. Security. The satellite absentee voting station shall be arranged so that ballots are protected against removal from the station by unauthorized persons.

b. Voting area. Voting booths without curtains shall be placed so that passersby and other voters may not walk directly behind a person using the booth. At least one voting booth must be accessible to the disabled. The booth must be designed to accommodate a person seated in a chair or wheelchair. A chair must be provided for voters who wish to sit down while voting or waiting in line.

c. Campaign signs and electioneering. No signs supporting or opposing any candidate or question on the ballot shall be posted on the premises of or within 300 feet of any outside door of any building affording access to a satellite absentee voting station during the hours when absentee ballots are available at the satellite absentee voting station. No electioneering shall be allowed within the sight or hearing of voters while they are at the satellite absentee voting station.

21.300(9) *Operation of the satellite absentee voting station.* At all times the satellite absentee voting station shall have at least two workers present to preserve the security of the ballots, both voted and unvoted.

21.300(10) *Voter registration at the satellite absentee voting station.* Each satellite absentee voting station shall provide forms necessary to register voters, including the oaths necessary to process voters registering pursuant to Iowa Code section 48A.7A, and to record changes in voter registration records. Workers shall also be provided with a method of verifying whether people applying for absentee ballots are registered voters.

The commissioner may provide a list of registered voters in the precincts served by the station. The list may be on paper or contained in a computerized data file. As an alternative, the commissioner may provide a computer connection with the commissioner's office.

21.300(11) *Procedure for issuing absentee ballot.* The instructions for absentee voting are available on the state commissioner's Web site and shall be provided to satellite absentee voting station workers unless the commissioner prepares instructions containing substantially the same information as the instructions available on the state commissioner's Web site.

21.300(12) *Closing a station.* The instructions for closing a satellite absentee voting station are available on the state commissioner's Web site and shall be provided to satellite absentee voting station workers unless the commissioner prepares instructions containing substantially the same information as the instructions available on the state commissioner's Web site.

21.300(13) *Use of I-Voters at satellite absentee voting stations.* Any county commissioner who wants to use the I-Voters statewide voter registration database at a satellite absentee voting station shall:

The application is available on the state commissioner's Web site. The application shall be submitted at least seven days before the opening of the satellite absentee voting station. If it is not possible to submit an application at least seven days before the station opens due to the receipt of a petition, the application shall be submitted as soon as possible. The application will be considered by the state commissioner as soon as practicable after it is received. The state commissioner reserves the right to reject an application for any reason or to limit the number of users at any satellite absentee voting station.

b. Use a cellular telephone service or a wired Internet connection to connect to the Internet from the satellite absentee voting station. If the county uses a wired Internet connection, the commissioner shall use either a regular or a wireless router between the wired Internet connection and the county's computers. Connection to a facility's wireless network is not permitted.

After confirming that a voter's absentee ballot has not been received or that a voter's absentee ballot has been received but cannot be counted due to a defective or incomplete affidavit, the commissioner shall mark the voter's absentee ballot as "Void" in the statewide voter registration system. The commissioner shall enter "Voted at polls" in the comment box that appears when the ballot is marked as "Void."

If a voter's absentee ballot is returned to the commissioner's office after being marked as "Void" pursuant to this rule, the absentee ballot shall be rejected by the absentee and special voters precinct board pursuant to Iowa Code section 53.25 because the voter cast a ballot in person at the polling place.

This rule is intended to implement Iowa Code sections 49.72, 49.81 and 53.19 as amended by 2010 Iowa Acts, Senate File 2196.

721—21.306 to 21.319 Reserved.

721—21.320(53) Absentee voting by UOCAVA voters. This rule applies only to absentee voting by persons who are entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA) and Iowa Code chapter 53, division II, "Absent Voting by Armed Forces."

21.320(1) Definitions. The following definitions apply to this rule:

"*Armed forces*," as used in this rule, is defined in Iowa Code section 53.37(3).

"*FPCA*" means the federal postcard absentee ballot application and voter registration form authorized for use in Iowa by Iowa Code section 53.38.

"*UOCAVA voter*" means any person who is entitled to vote by absentee ballot under the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA) and Iowa Code chapter 53, division II, "Absent Voting by Armed Forces."

21.320(2) Requests for absentee ballots. All requests for absentee ballots shall be made in writing. Additional requirements for requesting absentee ballots and for processing the requests are set forth below.

a. Forms. UOCAVA voters may use the following official forms to request absentee ballots:

(1) A federal postcard absentee ballot application and voter registration form (FPCA).

(2) A state of Iowa official absentee ballot request form.

(3) For general elections only, a proxy absentee ballot application prescribed by the state commissioner of elections and submitted pursuant to Iowa Code Supplement section 53.40(1) "b."

b. Form not required. UOCAVA voters may request absentee ballots in writing without using an official form. The written request shall be honored if it includes all of the following information about the voter:

(1) Name.

(2) Age or date of birth.

(3) Iowa residence, including street address (if any) and city.

(4) Address to which the ballot shall be sent.

(5) Township of residence, if applicable.

(6) County of residence.

(7) Party affiliation, if the request is for a ballot for a primary election.

(8) Signature of voter.

(9) Statement explaining why the voter is eligible to receive ballots under the provisions of Iowa Code chapter 53, division II. For example, "I am a U.S. citizen living in France."

c. Methods for transmitting absentee ballot requests. UOCAVA voters may transmit absentee ballot requests by any of the following methods:

(1) Mail.

(2) Personal delivery by the voter or a person designated by the voter.

(3) Facsimile machine.

(4) Scanned application form or letter transmitted by E-mail. Requests by E-mail that do not include either an image of the physical signature or a digital signature shall not be accepted.

d. Original request not needed. If the request is sent by E-mail or by fax, it is not necessary for the UOCAVA voter to send to the commissioner the original copy of the FPCA or other official form or written request for an absentee ballot.

e. Multiple requests from the same person. Before the ballot is ready to mail, if the commissioner receives more than one request for an absentee ballot for a particular election (or series of elections) by or on behalf of a UOCAVA voter, the last request received shall be the one honored. However, if one of the requests is for a general election ballot and is made using the proxy absentee ballot application process permitted by Iowa Code Supplement section 53.40(1) "b," the request received from the voter shall be the one honored, not the proxy request.

f. Subsequent request after ballot has been sent. Not more than one ballot shall be transmitted by the commissioner to any UOCAVA voter for a particular election unless, after the ballot has been mailed or transmitted electronically pursuant to rule 721—21.320(53), the voter reports a change in the address, E-mail address or fax number to which the ballot should be sent. The commissioner shall void the original absentee ballot request and include a comment in the voter's registration record, noting the I-Voters-sequence number of the original ballot and noting that a replacement ballot was sent to an updated address. If the original ballot is returned voted, it shall be counted only if the replacement ballot does not arrive before the deadline for receiving absentee ballots set forth in Iowa Code section 53.17.

g. Requests for absentee ballots through the end of the calendar year. 2009 Iowa Code Supplement section 53.40 as amended by 2010 Iowa Acts, Senate File 2194, permits UOCAVA voters to request the commissioner to send absentee ballots for all elections as permitted by state law. In response to an absentee ballot request in which the UOCAVA voter requests ballots for all elections, the commissioner shall send the applicant a ballot for each election held after the request is received through the end of the calendar year in which the request is received. If the applicant does not request ballots for all elections or does not specify which elections the request is for, the commissioner shall send the applicant a ballot only for federal elections through the end of the calendar year in which the request is received.

(1) When an absentee ballot for a UOCAVA voter is returned as undeliverable by the United States Postal Service or an E-mail server or a fax cannot be transmitted to the number provided by the voter, the commissioner shall do the following:

1. Verify that the commissioner's office sent the absentee ballot to the address, E-mail address or fax number requested by the UOCAVA voter. If the absentee ballot was sent incorrectly, the commissioner shall correct the error and immediately transmit a new absentee ballot.

2. If the absentee ballot was sent to the correct mailing address, E-mail address or fax number, the commissioner shall E-mail the voter if the commissioner has an E-mail address on file to inform the voter that the voter's ballot was returned undeliverable, and the commissioner must be provided with a new FPCA containing a new mailing address if the voter wishes to continue to receive absentee ballots.

3. If the absentee ballot was sent to the correct mailing address, E-mail address or fax number, the commissioner shall also attempt to contact the voter by sending a forwardable notice to both the voter's residential address and the voter's absentee mailing address informing the voter that the voter's ballot was returned undeliverable, and the commissioner must be provided with a new FPCA containing a new mailing address, E-mail address or fax number if the voter wishes to continue to receive absentee ballots.

4. If the absentee ballot was mailed, E-mailed or sent to the correct address or fax number, the commissioner shall terminate the voter's current FPCA request and shall not send the voter any further ballots unless a new absentee ballot request is received from the voter.

(2) If the voter provides a new FPCA with a new mailing address, E-mail address or fax number before election day, the commissioner shall enter a new absentee request on the voter's registration record and transmit the ballot via the method requested by the voter. The voter may request that the commissioner transmit the ballot electronically pursuant to subrule 21.320(3).

21.320(3) *Electronic transmission of absentee ballots to UOCAVA voters.*

a. Electronic transmission of absentee ballots by facsimile machine or by E-mail is limited to UOCAVA voters who specifically ask for this service. A UOCAVA voter who asks for electronic transmission of an absentee ballot may request this service for all elections for which the person is qualified to vote or for specific elections either individually or for a specific period of time. The commissioner may employ FVAP's secure transmission program to facilitate electronic transmission of absentee ballots to UOCAVA voters.

b. Forms. The state commissioner shall provide the following forms and instructions for the electronic transmission of absentee ballots to UOCAVA voters:

- (1) Instructions to the county commissioners of elections for providing this service.
- (2) Instructions to the voter for marking and returning the ballot.
- (3) The affidavit envelope form, which can be printed by the voter on an envelope and used for the voter's declaration of eligibility and voter registration application, if necessary.
- (4) The return envelope form, which can be printed by the voter on an envelope and used to return the ballot, postage paid through the FPO/APO postal service.

21.320(4) *Ballot return by electronic transmission.*

a. Electronic transmission of a voted absentee ballot from the voter to the commissioner is permitted only for UOCAVA voters who are in an area designated as an imminent danger pay area, as provided in subrule 21.1(13). In addition, the absentee ballot may be returned via electronic transmission only if the voter waives the right to a secret ballot. In addition to signing the affidavit required by Iowa Code section 53.13, the voter shall sign a statement in substantially the following form: "I understand that by returning this ballot by electronic transmission my voted ballot will not be secret. I hereby waive my right to a secret ballot."

b. When an absentee ballot is received via electronic transmission, the person receiving the transmission shall examine it to determine that all pages have been received and are legible. The person receiving an electronic transmission shall not reveal how the voter voted.

c. The absentee ballot shall be sealed in an envelope marked with the voter's name. The affidavit of the voter and the application for the ballot shall be attached to the envelope. These materials shall be stored with other returned absentee ballots.

This rule is intended to implement Iowa Code sections 53.40 and 53.46.

21.352(1) *Personnel.* The commissioner may assign staff members to complete the review of returned affidavit envelopes. Only persons who have been trained for this responsibility shall be authorized to review affidavit envelopes.

21.352(2) *Affidavit envelopes reviewed.* The affidavit envelopes of all absentee ballots returned to the commissioner's office shall be reviewed, including those of ballots returned by the bipartisan team delivering absentee ballots to health care facilities, such as hospitals and nursing homes. If a reviewer finds that any absentee affidavits returned from any health care facility are incomplete or defective, the commissioner shall send the bipartisan delivery team back to assist voters as needed with completing affidavits or to deliver any replacement ballots.

21.352(3) *Instructions.* Each reviewer shall receive instructions in substantially the form prepared by the state commissioner of elections. The instructions shall provide basic security and procedural guidance and include a method for accounting for all returned absentee ballots. The prohibitions shall include:

- a. Leaving unsecured ballots unattended.
- b. Altering any information on any affidavit.
- c. Adding any information to any affidavit, except as specifically required to comply with the requirements of the law.
- d. Sealing any affidavit envelope found open.

721—21.353(53) Opening the return carrier envelopes. The commissioner may direct a staff member to open the return carrier envelopes either manually or with an automatic letter opener, if one is available. Only a trained reviewer may remove the contents of the envelope.

721—21.354(53) Review process. A reviewer shall remove the contents from only one return carrier envelope at a time.

21.354(1) *Return carrier envelopes preserved.* The return carrier envelopes shall be stored in a manner that will facilitate their retrieval, if necessary. They shall be stored for 22 months for federal elections and 6 months for local elections.

21.354(2) *Examination of affidavit envelope.* The reviewer shall make sure that:

- a. The affidavit envelope is sealed, apparently with the ballot inside.
- b. The affidavit envelope has not been opened and resealed.
- c. The affidavit includes all of the following:
 - (1) A signature.
 - (2) For primary elections only, political party affiliation.

21.354(3) *No defects or incomplete information.* If the reviewer finds that the required information on the affidavit is complete and that there are no defects that would cause the absentee and special voters

precinct board to reject the ballot, the reviewer shall put the affidavit envelope into a group of envelopes to be retained in the secure storage area with others that require no further attention until they are delivered to the absentee and special voters precinct board.

21.354(4) *Defective and incomplete affidavits.* The commissioner shall contact the voter if the reviewer finds any of the following flaws in the affidavit or affidavit envelope:

a. The commissioner shall contact the voter immediately if the affidavit envelope is defective. An affidavit envelope is defective if:

- (1) The absentee ballot is not enclosed in the affidavit envelope.
- (2) The affidavit envelope is not sealed.
- (3) The affidavit envelope has been opened and resealed.
- (4) The voter submits a change of address in a new precinct after returning a voted absentee ballot.

b. The commissioner shall contact the voter within 24 hours if the affidavit is incomplete. An incomplete affidavit lacks:

- (1) The signature of the voter.
- (2) For primary elections only, political party affiliation.

c. If an affidavit envelope has flaws that are included in both paragraphs “a” and “b,” the commissioner shall follow the process in paragraph “a.”

21.354(5) *Defective and incomplete affidavits stored separately.* The commissioner shall store the defective and incomplete affidavit envelopes separately from other returned absentee ballot affidavit envelopes.

a. Incomplete affidavit envelopes requiring voter correction must be available for retrieval when the voter comes to make corrections.

b. Defective affidavit envelopes must be attached to the replacement ballot (if any) for review by the absentee and special voters precinct board.

[ARC 8045B, IAB 8/26/09, effective 7/27/09; ARC 8779B, IAB 6/2/10, effective 7/1/10]

When the commissioner finds an incomplete absentee ballot affidavit or finds a defective affidavit envelope, the commissioner shall notify the voter in writing and, if possible, by telephone and by E-mail. The commissioner shall keep a separate checklist for each voter showing the reasons for which the voter was contacted and the methods used to contact the voter.

21.355(1) *Notice to voter—incomplete ballot affidavit.* Within 24 hours after receipt of an absentee ballot with an incomplete affidavit, the commissioner shall send a notice to the voter at the address where the voter is registered to vote, as well as to the address where the ballot was sent, if it is a different address. The notice shall include:

a. Explanation of missing required information (lack of signature or, for primary elections only, political party affiliation).

Rules 721—21.351(53) through 721—21.355(53) are intended to implement 2009 Iowa Code Supplement section 53.18 as amended by 2010 Iowa Acts, Senate file 2196, and section 53.25.

721—21.356 to 21.358 Reserved.

721—21.359(53) Processing absentee ballots before election day. The commissioner may only direct the absentee and special voters precinct board to open affidavit envelopes on the Monday before election day under the following circumstances:

For any election, only if the commissioner has provided secrecy envelopes (or folders) pursuant to subrule 21.359(1) and the commissioner determines removing secrecy envelopes from affidavit envelopes is necessary due to the quantity of voted absentee ballots received as set forth in Iowa Code section 53.23, subsection 3, paragraph "a."

For general elections, if the commissioner convenes the absentee and special voters precinct board pursuant to Iowa Code section 53.23, subsection 3, paragraph "c," to begin tabulation of absentee ballots.

21.359(1) The secrecy envelope shall completely cover the ballot. The envelope shall have the following message printed on it using at least 24-point type:

<p style="text-align: center;">Secrecy Envelope After you vote, put your ballot in here.</p>

21.359(2) When the absentee and special voters precinct board convenes to begin processing absentee ballots, the board shall first review voters' affidavits to determine which ballots will be accepted for counting and prepare the notices to those voters whose ballots have been rejected for the reasons set forth in 2009 Iowa Code Supplement section 53.25. Affidavit envelopes containing ballots that are rejected shall be stored in the manner prescribed by Iowa Code section 53.26. The applications submitted for rejected ballots shall be stored in a secure location for the time period required by Iowa Code section 50.19.

21.359(3) The affidavit envelopes containing ballots that have been accepted for counting by the absentee and special voters precinct board shall be stacked with the affidavits facing down. The envelopes shall be opened and the secrecy envelope containing the ballot shall be removed.

21.359(4) If a voter has not enclosed the ballot in a secrecy envelope and the ballot has not been folded in a manner that conceals all votes marked on the ballot, the officials shall put the ballot in a secrecy envelope without examining the ballot.

21.359(5) The following security procedures shall be followed:

- a. The process shall be witnessed by observers appointed by the county chairperson of each of the political parties referred to in Iowa Code section 49.13, subsection 2. If, after receiving notice from the commissioner pursuant to Iowa Code section 53.23, subsection 3, paragraph "a," either or both political parties fail to appoint an observer, the commissioner may continue with the proceedings.

b. No ballots shall be counted or examined before election day except as provided in Iowa Code section 53.23, subsection 3, paragraph “c,” as amended by 2009 Iowa Acts, House File 670, section 1.

c. When secrecy envelopes are removed from affidavit envelopes on the day before an election and not tabulated as permitted by Iowa Code section 53.23, subsection 3, paragraph “c,” as amended by 2009 Iowa Acts, House File 670, section 1, the number of secrecy envelopes shall be recorded before the ballots are stored and the number shall be verified before any ballots are removed from the secrecy envelopes on election day. The ballots may be bundled and sealed in groups of a specified number to make counting easier.

This rule is intended to implement Iowa Code section 53.23 as amended by 2009 Iowa Acts, House File 670.

21.361(1) An absentee ballot shall be rejected if the affidavit lacks the voter's signature.

21.361(2) An absentee ballot shall be rejected if the applicant is not a duly registered voter in the precinct in which the ballot is cast. “Precinct” means a precinct established pursuant to Iowa Code sections 49.3 through 49.5 or a consolidated precinct established by the commissioner pursuant to Iowa Code section 49.11, subsection 3, paragraph “a.”

DIVISION IV
INSTRUCTIONS FOR SPECIFIC ELECTIONS

721—21.400(376) Signature requirements for certain cities. This rule applies to cities which have all of the following characteristics:

1. Nomination procedures under Iowa Code section 376.3 are used. (This includes cities with primary or runoff election provisions. It does not include cities with nominations under Iowa Code chapter 44 or 45.)
2. Some or all council members are voted upon by the electors of wards, rather than by the electors of the entire city.
3. Ward boundaries have been changed since the last regular city election at which the ward seat was on the ballot.
4. The number of wards has not changed.

Calculation of the number of signatures for ward seats shall use the vote totals from the wards as the wards were configured at the time of the last regular city election at which the ward seat was on the ballot.

This rule is intended to implement Iowa Code section 376.4.

721—21.401(376) Signature requirements in cities with primary or runoff election provisions. In cities using the provisions of Iowa Code section 376.4 for nomination of candidates and in which more than one council member was elected at-large at the last preceding regular city election, the number of signatures shall be calculated by the following formula:

V = the total number of votes cast for all candidates for council member at-large at the last regular city election;

E = the number of people to be elected at the last regular city election;

$$\frac{V}{E} \times .02 = \text{the number of signatures needed by each candidate in the next regular city election.}$$

This rule is intended to implement Iowa Code section 376.4.

721—21.402(372) Filing deadline for charter commission appointment petition. If a special election has been called by a city to present to the voters the question of adopting a different form of city government, receipt by the city council of a petition requesting appointment of a charter commission shall stay the special election if the petition is received no later than 5 p.m. on the Friday preceding the date of the special election.

This rule is intended to implement Iowa Code section 372.3.

721—21.403(81GA, HF2282) Special elections to fill vacancies in elective city offices for cities that may be required to conduct primary elections.

21.403(1) Notice to the commissioner. At least 60 days before the proposed date of the special election, the city council shall give written notice to the commissioner who will be responsible for conducting the special election.

a. If the commissioner finds no conflict with other previously scheduled elections, or with other limitations on the dates of special elections, the commissioner shall immediately notify the council that the date has been approved.

b. No special city elections to fill vacancies for cities that may be required to conduct primary elections shall be held with the general election, with the primary election, or with the annual school election. To do so would be contrary to the provisions of Iowa Code section 39.2.

21.403(2) Election calendar. The election calendar shall be adjusted as follows:

a. The deadline for candidates to file nomination papers with the city clerk shall be not later than 12 noon on the fifty-third day before the election.

b. The city clerk shall deliver all nomination papers accepted by the clerk to the county commissioner of elections not later than 5 p.m. on the fifty-third day before the election.

c. A candidate who has filed nomination papers for the special election may withdraw not later than 5 p.m. on the fiftieth day before the election.

d. A person who would have the right to vote for the office in question may file a written objection to the legal sufficiency of a candidate's nomination papers or to the qualifications of the candidate for this special election not later than 12 noon on the fiftieth day before the election.

e. The hearing on the objection must be held within 24 hours of receipt of the objection.

This rule is intended to implement Iowa Code section 372.13(2) as amended by 2006 Iowa Acts, House File 2282, section 2.

721—21.404(81GA, HF2282) Special elections to fill vacancies in elective city offices for cities without primary election requirements. This rule applies to cities that have adopted by ordinance one of the following options: nominations under Iowa Code chapter 44 or chapter 45, or a runoff election requirement if no candidate in the special election receives a majority of the votes cast.

21.404(1) Notice to the commissioner. At least 32 days before the proposed date of the special election, the city council shall give written notice to the commissioner who will be responsible for conducting the special election. If the commissioner finds no conflict with other previously scheduled elections, or with other limitations on the dates of special elections, the commissioner shall immediately notify the council that the date has been approved.

21.404(2) Special elections to fill vacancies held in conjunction with the general election. If the proposed date of the special election coincides with the date of the general election, the council shall give notice of the proposed date of the special city election not later than 76 days before the date of the general election. Candidates shall file nomination papers with the city clerk not later than 5 p.m. on the seventieth day before the general election. The city clerk shall deliver the nomination papers accepted by the clerk not later than 5 p.m. on the sixty-ninth day before the general election. Objection and withdrawal deadlines shall be 64 days before the general election, the same as the deadlines for candidates who file their nomination papers with the commissioner. Hearings on objections shall be held as soon as possible in order to facilitate printing of the general election ballot.

21.404(3) Election calendar. If the special election date is not the same as the date of the general election, the election calendar shall be adjusted as follows:

a. The deadline for candidates to file nomination papers with the city clerk shall be not later than 12 noon on the twenty-fifth day before the election.

b. The city clerk shall deliver all nomination papers accepted by the clerk to the county commissioner of elections not later than 5 p.m. on the twenty-fifth day before the election.

c. A candidate who has filed nomination papers for the special election may withdraw not later than 5 p.m. on the twenty-second day before the election.

d. A person who would have the right to vote for the office in question may file a written objection to the legal sufficiency of a candidate's nomination papers or to the qualifications of the candidate for this special election not later than 12 noon on the twenty-second day before the election.

e. The hearing on the objection must be held within 24 hours of receipt of the objection.

This rule is intended to implement Iowa Code section 372.13(2) as amended by 2006 Iowa Acts, House File 2282, section 2.

721—21.405 to 21.499 Reserved.

721—21.500(277) Signature requirements for school director candidates. The number of signatures required to be filed by candidates for the office of director in the regular school election shall be calculated from the number of registered voters in the district on May 1 of the year in which the election will be held. If May 1 falls on a day when the commissioner's office is closed for business, the commissioner shall use the number of registered voters in the district on the next day that the commissioner's office is open for business to determine the number of required signatures. Candidates who are seeking election in districts

with election plans as specified in Iowa Code section 275.12(2) “b” and “c,” where the candidate must reside in a specific director district, but is voted upon by all of the electors of the school district, shall be required to file a number of signatures calculated from the number of registered voters in the whole school district. Candidates who will be voted upon only by the electors of a director district shall be required to file a number of signatures calculated from the number of registered voters in the director district in which the candidate resides and seeks to represent.

If a special election is to be held to fill a vacancy on the school board, the number of registered voters on the date the commissioner receives notice of the special election shall be used to calculate the number of signatures required for the special election.

This rule is intended to implement Iowa Code sections 277.4 and 279.7.

721—21.501 to 21.599 Reserved.

721—21.600(43) Primary election signatures—plan three supervisor candidates. The minimum number of signatures needed by candidates for the office of county supervisor elected under plan three, where candidates are voted upon only by the voters of the supervisor district, shall be determined by one of the two following methods.

21.600(1) If there were 5,000 or more votes cast in the supervisor district for a political party’s candidate for governor or for president of the United States, the minimum number of signatures needed is 100.

21.600(2) If there were less than 5,000 votes cast in the supervisor district for a political party’s candidate for governor or for president of the United States, the minimum number of signatures is determined by using one of the following formulas:

Democratic candidate’s signature requirement: $([AD \div S] + VD) \times .02$

Republican candidate’s signature requirement: $([AR \div S] + VR) \times .02$

AD = the number of absentee votes received in the entire county by the Democratic party’s candidate for governor or for president of the United States in the previous general election.

AR = the number of absentee votes received in the entire county by the Republican party’s candidate for governor or for president of the United States in the previous general election.

S = the number of supervisor districts in the county (3 or 5).

VD = the number of votes cast in the supervisor district for the Democratic party’s candidate for governor or for president of the United States in the previous general election. (If this number is 5,000 or more, the minimum number of signatures needed is 100.)

VR = the number of votes cast in the supervisor district for the Republican party’s candidate for governor or for president of the United States in the previous general election. (If this number is 5,000 or more, the minimum number of signatures needed is 100.)

This rule is intended to implement Iowa Code section 43.20(1) “d.”

721—21.601(43) Plan III supervisor district candidate signatures after a change in the number of supervisors. After the number of supervisors has been increased or decreased pursuant to Iowa Code section 331.203 or 331.204, the signatures for candidates at the next primary and general elections shall be calculated as follows:

21.601(1) Primary election. Divide the total number of votes cast in the county at the previous general election for the office of president or for governor, as applicable, by the number of supervisor districts and multiply the quotient by .02. If the result of the calculation is less than 100, the result shall be the minimum number of signatures required. If the result of the calculation is greater than or equal to 100, the minimum requirement shall be 100 signatures.

21.601(2) Nominations by petition. If the effective date of the change in the number of districts was later than the date specified in Iowa Code section 45.1(6), divide the total number of registered voters in the county on the date specified in Iowa Code section 45.1(6) by the number of supervisor districts and multiply the quotient by .01. If the result of the calculation is less than 150, the result shall be the

minimum number of signatures required. If the result of the calculation is greater than or equal to 150, the minimum requirement shall be 150 signatures.

721—21.602(43) Primary election—nominations by write-in votes for certain offices.

21.602(1) The process described in subrule 21.602(2) shall be used to determine whether the primary election is conclusive and a candidate was nominated for partisan offices that are:

- a. Not mentioned in Iowa Code section 43.53 (township offices) or 43.66 (state representative and state senator), and
- b. For which no candidate's name was printed on the primary election ballot, and
- c. For which no candidate's name was printed on the primary election ballot in any previous primary election.

21.602(2) To be nominated by write-in votes, the person must receive at least 35 percent of the number of votes cast in the previous general election for that party's candidate for president of the United States or for governor, as the case may be, as follows:

- a. Statewide office: 35 percent of votes cast statewide.
- b. Congressional district: 35 percent of votes cast within the current boundaries of the Congressional district.
- c. County office, including plan II supervisors: 35 percent of the votes cast within the county.
- d. Plan III county supervisor: 35 percent of the votes cast within the supervisor district. If the boundaries of the supervisor district have changed since the previous general election, the number of votes cast within the county for the party candidate for president or for governor, as the case may be, shall be divided by the number of supervisor districts in the county; then the quotient shall be multiplied by 0.35.

21.602(3) If a write-in candidate is declared nominated at the canvass of votes, Iowa Code section 43.67, which requires the appropriate election commissioner to notify the candidate, shall apply.

This rule is intended to implement Iowa Code section 43.66.

721—21.603 to 21.799 Reserved.

721—21.800(423B) Local sales and services tax elections.

21.800(1) Petitions requesting imposition, rate change, use change, or repeal of local sales and services taxes shall be filed with the county board of supervisors.

a. Each person signing the petition shall include the person's address (including street number, if any) and the date that the person signed the petition.

b. Within 30 days after receipt of the petition, the supervisors shall provide written notice to the county commissioner of elections directing that an election be held to present to the voters of the entire county the question of imposition, rate change, use change, or repeal of a local sales and services tax. In the notice the supervisors shall include the date of the election.

c. The election shall be held on the first possible special election date for counties set forth in Iowa Code section 39.2, subsection 4, paragraph "c," but no sooner than 84 days after the date upon which notice is given to the commissioner.

21.800(2) As an alternative to the method of initiating a local option tax election described in subrule 21.800(1), governing bodies of cities and the county may initiate a local option tax election by filing motions with the county auditor pursuant to Iowa Code section 423B.1, subsection 4, paragraph "b," requesting submission of a local option tax imposition, rate change, use change, or repeal to the qualified electors. Within 30 days of receiving a sufficient number of motions, the county commissioner shall notify affected jurisdictions of the local option tax election date. The election shall be held on the first possible special election date for counties set forth in Iowa Code section 39.2, subsection 4, paragraph "c," but no sooner than 84 days after the date upon which the commissioner received the motion triggering the election.

21.800(3) Notice of local sales and services tax election.

a. Not less than 60 days before the date that a local sales and services tax election will be held, the county commissioner of elections shall publish notice of the ballot proposition. The notice does not need to include sample ballots, but shall include all of the information that will appear on the ballot for each city and for the voters in the unincorporated areas of the county.

b. The city councils and the supervisors shall provide to the county commissioner the following information to be included in the notice and on the ballots for imposition elections:

(1) The rate of the tax.

(2) The date the tax will be imposed (which shall be the next implementation date provided in Iowa Code section 423B.6 following the date of the election and at least 90 days after the date of the election, except that an election to impose a local option tax on a date immediately following the scheduled repeal date of an existing similar tax may be held at any time that otherwise complies with the requirements of Iowa Code chapter 423B). The imposition date shall be uniform in all areas of the county voting on the tax at the same election.

(3) The approximate amount of local option tax revenues that will be used for property tax relief in the jurisdiction.

(4) A statement of the specific purposes other than property tax relief for which revenues will be expended in the jurisdiction.

c. The information to be included in the notice shall be provided to the commissioner by the city councils of each city in the county not later than 67 days before the date of the election. If a jurisdiction fails to provide the information in subparagraphs 21.800(3)“b”(1), 21.800(3)“b”(3), and 21.800(3)“b”(4) above, the following information shall be substituted in the notice and on the ballot:

(1) One percent (1%) for the rate of the tax.

(2) Zero percent (0%) for property tax relief.

(3) The specific purpose for which the revenues will otherwise be expended is: Any lawful purpose of the city (or county).

d. The notice of election provided for in Iowa Code section 49.53 as amended by 2009 Iowa Acts, House File 475, shall also be published at the time and in the manner specified in that section.

This rule is intended to implement Iowa Code section 423B.1.
